

September 8, 2023

The Honorable Pete Buttigieg, Secretary
U.S. Department of Transportation
1200 New Jersey Ave, SE
Washington, DC 20590

Dear Secretary Buttigieg,

Please accept this letter of strong support for the Maine Department of Transportation's grant application under the **2023 U.S. Department of Transportation Reconnecting Communities and Neighborhoods Program**. The application outlines important plans to significantly improve the Libbytown neighborhood in Portland, Maine, via the elements included in the *Reconnecting Our Villages: Historic Libbytown* ("Project") to revitalize and reconnect this area as a result of the construction of Interstate 295 in the late 1960's. The work will improve connections throughout the community by:

- Reconstructing numerous streets to include traffic calming features and ADA-compliant sidewalks and crosswalks;
- Installing sidewalks and bikeways to encourage active transportation along right-of-ways that are safe and modern;
- Improving transit stops to support stronger community-wide accessibility; and
- Constructing a roundabout that is safe and improves traffic flow for drivers, bicyclists and pedestrians.

The Project will lift burdens and support accessibility to housing, employment, retail, healthcare, tourism and recreation – including the state's \$14 billion tourism industry critical to Maine's economy.

The Portland Public Schools, Maine's largest and most diverse school district, strongly endorses this project, which emphasizes pedestrian and bicycle safety and connectivity. Many of our students walk and bike to school and this project's bicycle, pedestrian and streetscape improvements will better street safety and function for all users. Also, the increased walking, biking and accessibility opportunities included in this project would help foster healthier lifestyle choices for students and families, which can be a factor in improved student learning.

We are pleased that MaineDOT, in coordination with the City of Portland, is seeking assistance from USDOT for this very important Project and hope USDOT is able to assist funding these improvements. We recognize the importance of supporting USDOT merit criteria and providing equitable transportation options. Modernizing neighborhood transportation leads to safe and efficient connections and a better quality of life for all.

Sincerely,

Ryan Scallon, Ed.D.
Superintendent
