Subject: With Rights Come Responsibilities: Strong Rules for Bt corn

Henry Jennings ,

Dear Members of the Board of Pesticide Control:,

I am writing to you today to urge you to rescind the allowable use of Bt corn in Maine until it is proven safe for use to ALL watersheds, species and growers.

A benefit to some should not come with a risk to others

Thanks for the opportunity to provide guidance for this critical decision.

I will be watching for your response to our inputs.
