STATEMENT BY FIRM Comprehensive Environmental Inc. (CEI) is a civil engineering consulting firm incorporated in 1987. As a civil engineering and environmental science firm composed of Professional Engineers (civil, environmental, geotechnical, transportation, and chemical) and Scientists, CEI works primarily for local, state and federal agencies. Our broad experience covers stormwater management/drainage design, roadway engineering, utilities, hazardous waste site assessment and remediation, solid waste, water supply, wastewater, flooding, water resources, compliance, permitting, inspection and construction services. As a small woman-owned business and DBE in the State of Maine, CEI has worked with ME DEP to update statewide stormwater management guidance manuals. CEI serves the New England area from its three centrally located offices in New Hampshire, Massachusetts and Connecticut.
