## 1.3 Administrative Control Unit Population

The Administrative Control Unit (ACU) is a housing unit at the Maine State Prison for residents in need of an extended period of intensive security and programming, when a return to a larger general population may pose an on-going or serious threat to the safety of others, risk of escape, or another repeated or serious threat to facility security. Residents in the ACU are afforded at least four (4) hours of time out of cell, per day, and are afforded access to programs, services, and communications comparable to general population housing areas.

The percent of the adult male population that was housed in the Administrative Control Unit (ACU) during the month of March 2024 was 0.43% (7 residents). The percent of the adult male population in ACU over the past two years is shown in the graph below.

The below tables show the demographics of residents in the Administrative Control Unit during the month of March 2024.

Race	Males	
Asian	0	0.00%
Black or African American	2	28.57%

## 1.4 Restrictive Housing Population

Restrictive housing at MDOC is defined as housing that separates a resident from the general population and restricts the resident to his or her cell twenty-two (22) hours or more per day for the safe and secure operation of the facility.

Administrative status is the MDOC’s designation used when placing a resident in restrictive housing. Administrative status is the placement of a resident in a cell in a restrictive housing unit separated from the general population or in another housing unit only for as long as necessary as a result of a determination that there is a direct threat to the safety of persons or a clear threat to the safe and secure operation of the facility if the prisoner is on a less restrictive status.

The number of stays below and to the left are the number of times any resident spent any amount of time on the status during the month of March 2024. The number of unique residents below and to the right, are the number of residents that spent any amount of time on the status during the month of March 2024.

Number of Stays for Each Status	Male	Female
Administrative Status	55	2
Disciplinary Segregation	8	2

Number of Unique Residents for Each Status	Male	Female
Administrative Status	54	2
Disciplinary Segregation	8	1

The below tables show the demographics of residents on a restrictive housing status during the month of March 2024.

Race	Male		Female	
	Count	Percentage	Count	Percentage
Asian	0	0.0%	0	0.0%
Black or African American	17	29.31%	0	0.0%
Native American	5	8.62%	0	0.0%
Nat. Hawaiian or Pac. Islander	0	0.0%	0	0.0%
Two or More Races	1	1.72%	0	0.0%
Unknown	0	0.0%	0	0.0%
White	35	60.34%	2	100.0%

Age Groups	Male		Female	
	Count	Percentage	Count	Percentage
20's	14	24.14%	1	50.0%
30's	22	37.93%	0	0.0%
40's	14	24.14%	1	50.0%
50's	6	10.34%	0	0.0%
60's	1	1.72%	0	0.0%
70's	1	1.72%	0	0.0%
80's	0	0.0%	0	0.0%

An administrative status placement is an option of last resort, to be used only when a less restrictive alternative has not been or would not be effective to resolve the threat posed. This is especially important if a client has any medical or mental health condition that might contraindicate the placement.

In March, there were no residents with a severe mental illness and one who identified as transgender at time of Administrative Status placement. Three residents had a special need. “Special need” refers to residents with higher psychiatric acuity who need consistent/regular and frequent engagement with the mental health and psychiatric teams.

For residents placed on Administrative Status during the month of March 2024, the following table lists the reasons for the Administrative Status placement.

## March 2024 Data Reporting

### 2.0 Correctional Programming

#### 2.1 Resident Classification Reviews

Client classification is a correctional process by which each resident is rated per his/her institutional risk and is used to determine an appropriate housing unit. There are four classifications for MDOC residents, including: Close, Medium, Minimum, and Community. An Initial Classification is performed upon admission to a correctional facility after completion of intake assessments. After the initial classification, residents with more than 5 years must be reviewed annually. Residents with 5 years or less remaining, or who are transgender, or intersex must be reviewed every 6 months. Case Managers and Unit Teams combined are responsible for keeping classifications up to date.

Classification reviews by facility can be found below (*as of April 2, 2024*).

## 2.3 Programming Tablets

There are over 800 programming and entertainment tablets available to residents at specific levels in the following facilities: Maine State Prison, Maine Correctional Center, and Mountain View Correctional Facility. They are corrections grade and operate on a closed, managed network that allows residents access to thousands of hours of free academic, vocational, life skills, and therapeutic programming designed for all learning levels.

“Productive Hours” is the total amount of time residents spent in active programming and “Total Hours” includes “Productive Hours” plus entertainment hours used. Residents earn entertainment time for active programming time.

## 4.0 Supervised Community Confinement Program (SCCP)

The purpose of the Supervised Community Confinement Program is to provide a means of successful reentry of facility residents into the community. Residents transferred to supervised community confinement are still considered facility residents while in the program. The place of confinement is in the community, rather than in a correctional facility. Participation in this program is a privilege that may be afforded to residents who meet the established criteria.
