Robert Kautz, Executive Director
Maine Charter School Commission
182 State House Station
Augusta, ME 04330

Dear Mr. Kautz:

According to the very positive comments we have received about the quality of our clinics, the recent MSMA Fall Conference was a great success. The evaluation forms, comments received during the Conference, emails and numerous phone calls have been most complimentary about the variety and usefulness of the information and advice provided.

We are very grateful for the generous donation of your time and effort in the Maine's Public Charter Schools: The Facts and Questions Answered clinic. We hope that the facilities were conducive for your presentation. If you have specific comments about the Conference and would like information about the evaluations of your presentation, please contact Debbie Swift, at 1-800-660-8484.

Thank you very much for your contribution; we greatly appreciate your participation.

Sincerely,

Dr. Robert G. Hasson, Jr.
Deputy Executive Director

N.B.: Please feel free to offer suggestions to enhance the future Conferences, particularly potential clinic topics and presenters you think would be valuable for the Maine school board members and superintendents of schools to experience!
