Re: Request for Substantive Review of Petition to Remove Milton Township From the Expedited Permitting Area

Dear Ms. Olsen:

In accordance with 35-A MRSA § 3453-A(3) and (4), and the December 2015 Overview of Process for the Maine Land Use Planning Commission's Review of Petitions for the Removal of Places from the Expedited Permitting Area for Wind Energy Development, I am requesting substantive review of and a public hearing on the petition to remove Milton Township from the expedited permitting area (the "Petition"). I own property in Milton Township and will be adversely impacted if the township is removed from the expedited wind permitting area. Removal will have also an unreasonable adverse effect on the State's ability to meet its goals for wind energy development and is inconsistent with the principal values and goals of the comprehensive land use plan adopted by the Commission.

I understand that the Commission will set a schedule for submission of substantive information and public comment in support of this request for substantive review and that no further action is necessary at this time to request substantive review.

Thank you for consideration of this request. My mailing address is 48 Buck Road, Milton Township, Maine, 04219.

Sincerely,

Wayne F. Buck, Sr.
