---

Hi Fred,

I've reviewed the HHE-200 Form dated 10/22/10 by Albert Frick, S.E. for the operations building that will serve the Champlain Wind Energy/Bowers Wind Project in Carroll Plantation, under DP 4889. The onsite sewage disposal system design meets provisions of the Subsurface Wastewater Disposal Rules. On that basis, the Division of Environmental Health recommends approval for this system.

Feel free to contact me if you have any questions.

Jim Jacobsen
