

Sample only: Applicators and growers should consult legal counsel.

HERBICIDE CARRYOVER CUSTOMER ACKNOWLEDGEMENT

Notice: Hay, plant material, manure, bedding or compost must not leave the property where the herbicide application is made.

Customers who purchase or contract for the application of the herbicide: _____, EPA Reg. No. _____ become responsible for stewardship obligations as specified by the product label.

The above listed herbicide falls into a class of herbicides that can persist in the hay or other plant material after treatment and in the manure of animals fed treated hay or other treated plant materials.

The product label prohibits movement of the following materials off the property where the herbicide application was made.

- hay,
- plant materials,
- bedding,
- manure, and
- compost made from
 - hay,
 - plant materials,
 - bedding, and
 - manure

Also, affected hay, plant materials, bedding, manure and compost cannot be used as a soil amendment for the production of broadleaf plants due to the likelihood of plant injury. The undersigned customer hereby acknowledges the limitations and responsibilities described herein.
