**Departmental
Findings of Fact and Order
Air Emission License
Amendment #1**

After review of the air emission license minor revision application, staff investigation reports, and other documents in the applicant's file in the Bureau of Air Quality, pursuant to 38 M.R.S.A, Section 344 and Section 590, the Department finds the following facts:

I. REGISTRATION

Andover Wood Products, Inc. of Andover, Maine has submitted a minor revision to change the name on the facility's air emission license to Andover Division of Ethan Allen Operations, Inc.

Air emission license A-317-71-I-R, issued to Andover Wood Products on June 14, 2004, includes one oil fired boiler, one wood boiler, one diesel generator, and process equipment.

II. MINOR REVISION DESCRIPTION

Andover Wood Products has submitted a revision to update the name of the facility and explain the corporate reorganization. As of July 1, 2005, internal changes were implemented to align the business operations. Within Ethan Allen, the active manufacturing/distribution facilities were transferred from one-wholly owned company of Ethan Allen to another wholly-owned company of Ethan Allen. The restructuring does not change the manufacturing/distribution processes or operational control of the facility. Before and after the change, the Andover facility was and still is a wholly-owned subsidiary of Ethan Allen Interiors, Inc. Therefore, no transfer application was required.

ORDER

Based on the above Findings and subject to conditions listed below the Department concludes that the emissions from this source:
