

Section 2
Title, Right, or Interest

Evergreen Wind Power II, LLC (Evergreen II) has obtained the rights necessary for the construction and operation of the proposed Revised Oakfield Wind Project, the associated collector lines, and the substation. Appendix 2-1 lists the landowners from whom rights have been or will be acquired, including the town and tax map/lot number for each parcel, and identifies the nature of the interest being acquired. Copies of the relevant documents are included in Appendix 2-2.

In order to secure sufficient land to design the project, Evergreen II has obtained rights to lease large parcels of land that are expected to contain some portion of the project (e.g., roads, turbines, electric systems). After final permitting and construction, Evergreen II retains the right to release portions of the leased area not required for development. To the extent necessary to meet sound or other setback requirements, however, Evergreen II will retain such rights in the leased areas.

In addition to the property interests necessary to construct the project, Evergreen II recognized the need to obtain easements and agreements from property owners who were not part of the project in order to satisfy sound or public safety setback requirements. Those easements and agreements are included in Sections 5 or 27 of the application.

Appendix 2-1

Index	Tax Map	Lot(s)	Grantor Name	EWPII, LLC Interest
1	OAK 1	10	Joseph G. Varricchio and Mary L. Gaeta	Lease
2	OAK 1	14	Evergreen Wind Power II, LLC	Fee
3	OAK 1	18	William J. Lawlor, Jr. and Harriett Lawlor	Lease
4	OAK 1	20	Kerry N. Bartlett	Lease
