

Maine Household Electronic Waste Recycling Program Initial Manufacturer Registration and Compliance Plan

Date:

Manufacturers* of televisions (including portable DVD players), computer monitors (including portable notebook computers and digital picture frames), desktop printers and video game consoles are subject to Maine's Electronic Waste Law, 38 M.R.S.A. §1610. Manufacturers are required to submit an initial registration form to the Maine Department of Environmental Protection (Maine DEP) prior to offering their products for sale into Maine, and are subsequently required to submit an annual registration by July 1 of each year. Historic manufacturers of computer monitors and desktop printers are also required to submit an initial registration form and annual reports as long as their product remains in Maine's household waste stream

*Maine's E-Waste Law defines a manufacturer as follows:

D. "Manufacturer" means a person who:

- (1) Manufactures or has manufactured a covered electronic device under its own brand or label;
- (2) Sells or has sold under its own brand or label a covered electronic device produced by other suppliers;
- (3) Imports or has imported a covered electronic device into the United States that is manufactured by a person without a presence in the United States; or
- (4) Owns a brand that it licenses or licensed to another person for use on a covered electronic device.

Maine's law assigns responsibilities to manufacturers including any successor in interest to a historic manufacturer, i.e., any business which has assumed legal responsibility through purchase of the historic manufacturer's assets.

Company Name:

B. Covered Electronic Devices (CEDs)

List all current and historic brand names for which you are or were the brand/trademark owner next to each type of covered electronic device. Mark N/A if you have never marketed that type of device. When a word, phrase, log, or mark is used in the label identifying the brand, include the word, phrase, logo or mark and description of the general ways it may appear on the product. Attach additional pages if needed.

Type of CED	Current Brand Names	Historic brand names	N/A
Televisions with cathode ray tube			<input type="checkbox"/>
Televisions – flat panel technology			<input type="checkbox"/>
Televisions – portable DVD player			<input type="checkbox"/>
Portable notebook computers			<input type="checkbox"/>
Computer monitors with cathode ray tube			<input type="checkbox"/>
Computer monitors – flat panel technology			<input type="checkbox"/>
Digital picture frames			<input type="checkbox"/>
Desktop printers			<input type="checkbox"/>
Video game consoles			<input type="checkbox"/>

Company Name:

C. Manufacturer handling option for computer monitors and desktop printers

If you are a manufacturer of computer monitors (including portable notebook computers and digital picture frames) and or desktop printers, please select one of the following options for the handling and recycling of your branded products:

- Standard plan - The consolidator performs a brand count and contracts for environmentally-sound management with a qualified recycling and dismantling facility, then bills the manufacturer for the costs associated with handling, transportation and recycling based on the weight of the manufacturer's products received plus the manufacturer's share of orphan products (if any).

-OR-

- Option 1 - The consolidators physically sort the manufacturer's product and bill the manufacturer for transportation and "Option 1 handling" cost plus the transportation handling & recycling of its share of orphan waste; additionally, the manufacturer contracts with a recycler of their choice to pick up their product from the consolidator within 72 hours of being notified by the consolidator that there is enough product to fill a 40' trailer or annually (whichever is more frequent), and the manufacturer's selected recycler bills the manufacturer for the additional transportation and recycling. My selected recycler is:

Company Name:

Mailing Address:

Shipping Address:

Contact Name and Phone:

The consolidator will manage the handling, transportation, recycling and billing in accordance with the manufacturer's selected preference (or such other contracted arrangements negotiated that are consistent with the Chapter 415 rule but vary from these alternatives). Manufacturers must pay valid invoices from the DEP-approved consolidators within 90 days of receipt of such invoices.

Company Name:

D. Maine sales data for past five years.

Product type	2004		2005		2006		2007		2008	
	Number of units	Average unit weight	Number of units	Average unit weight	Number of units	Average unit weight	Number of units	Average unit weight	Number of units	Average unit weight
Televisions with cathode ray tube

We encourage all of our customers to recycle their used electronics. All waste computer monitors, portable computers, digital picture frames, televisions, portable DVD players, desktop printers, and video game consoles generated by households in Maine must be recycled. Please contact your local municipality for information about how and where to recycle your e-waste in your area. For more information about Maine’s electronic waste law, please visit the Maine Department of Environmental Protection website at www.maine.gov/dep/rwm/ewaste/index.htm.
