Re: Request for Public Hearing on JRL Acceptance of Westbrook Bypass

Please be advised that the JRL Committee is requesting a Public Hearing with the D.E.P. staff regarding the above referenced subject. It is our firm belief that our Committee, who is responsible for keeping the surrounding communities apprised of the Landfill activities need to be party to any changes in the license and Operating Service Agreement.

In the Amendment request by Pine Tree Waste Processing Facility, we take special exception to the term "regardless of origin". Through the D.E.P. License and OAS we have made every effort to exclude out of state waste and must continue to do so.

Your prompt response to this request will be deeply appreciated.
