Contact Gary Benoit (gary.benoit@testamericainc.com)

(Note: Lab carries NELAC and NH certification for WET testing. Lab tests for water flea only. Acute testing only.

Note: Only WET species required by Maine wastewater discharge licenses (water flea, brook/rainbow trout, mysid shrimp and sea urchins) are included in the above listings. Please check with the Lab if other species are required. The above listings are only for the WET testing done using live organisms. Any associated chemical analyses must be done by Maine certified Lab. The lab must be certified for analyses of the required parameters in wastewater.
