Description of Services: Choices Are For Everyone, Inc. is a nonprofit agency offering community based services to children and adults with developmental disabilities. CAFE focuses upon the needs, wants, wishes, and desires of each person we serve, in relation to their community environment. We sincerely believe that each person we serve has the right to live their life without restrictions, constraints, and controls being placed upon them. Every person should be offered a wide variety of choices in life and that is what we strive for on a daily basis.
