### ESM

#### *A Whole Life Community Rehabilitation Program*

ESM services focus on the “whole life” for each individual and on promoting independence. It is ESM’s philosophy that every citizen has an opportunity to reach their own personal goals regardless of the support they may need in order to succeed in the community.

#### **Description of Services:** *Community Case Management*

Case managers meet with consumers and their families to monitor services and assure his/her satisfaction with the process and outcomes of support, services and available resources. The primary role of a case manager is to assist in identifying and implementing support strategies that reflect the consumer’s personal vision. We will assist in the development of a person centered plan followed by the monitoring of goals and objectives in order to meet your needs and desires.
