Description of Services: Living Innovation's provides supports throughout the State of Maine to adults and children who are diagnosed with a developmental disability.

Our **Saco office** offers **Community Case Management** services to those folks who are 18 and older and live at home, independently or with family. Our Case Managers work with the consumer and their family, if applicable, to identify and coordinate services through the development of a person centered plan. Our goal is to assist and encourage each consumer to be an active member of the community in which they live.

From our Saco office, we are able to provide these services in the following areas: **York and Cumberland Counties.**

We also offer Shared Living Services (or Home Support) and Children's In-Home Behavioral Support Services (Sec 24) out of our Saco office.
