6. What suggestions do you have for future meetings (include topics, locations, etc.)?
- Review of Section 24 services and process of applying for
  - Resources for agencies and families
  - N/A
  - N/A
  - How about NAMI, family organizations about building collaborative working relationships
  - No changes needed
  - ITRT up-dates from CBHS, helpful services for children being cared for by grandparents. It was difficult to hear some people today due to low voice and noisy lobby
  - Same style
  - Hard to hear – all speakers should stand and speak louder
  - Presenters should wear mic’s – very difficult to hear them. Presenters need to ask and remind participants to speak up. It would be good for people to refrain from using acronyms and/ or explain them
  - Include more detail & clear next steps for proposed policy changes, etc. Proposal to use CAFAS every 90 days & cut off of 50 for services
  - Perhaps some small group discussion by county or districts
  - Discussions from providers on how things are going with TCM, Section 24, etc.
  - Include more info on recent up-dates for Section 24

- **Thank you!**
- **My agency had already received a lot of the up-dates provided today**
- **None**
- **Would have been really good to have a child who is being served by wrap around to share his / her experiences. The Maine Children's Alliance is not helpful to work**
- **I would like to see hi-fi wrap in more areas. People need to speak louder to have their voices carry to such a large group**
- **OCFS – CBHS up-dates were helpful**
