# Burnt Island Adventure Camp 2011

Join in on the fun this summer!

The Maine State Aquarium is proud to offer the new Burnt Island Adventure Program for the summer of 2011. This unparalleled camp experience will allow kids the opportunity to explore a pristine 5-acre island complete with it's own lighthouse. Local kids will enjoy the opportunity to get up close and personal with a treasure in their own backyard, and kids visiting from other places will enjoy the opportunity to explore Maine in a whole new way.

Situated in the heart of Boothbay Harbor, Burnt Island Lighthouse has stood the test of time in protecting our special place on the coast of Maine. Sporting the oldest original lighthouse tower in Maine, Burnt Island provides an exciting place for campers to explore tide pools, go fishing, visit a working lighthouse, and with our team of educators on hand- immerse themselves in a variety of marine and terrestrial science activities. Of course we couldn't forget more traditional camp activities like crafts, games, and free time! Burnt Island provides a truly unique space for hands-on learning, free from the distractions of mainland living.

*Campers fishing of from the Pier!*
