This brochure is designed to explain how new commercial lobster license numbers were determined for 2009 for each zone. If you have any questions, contact the License Eligibility Specialist at the telephone number or e-mail shown on the cover.

What is the Statutory and Regulatory Background for Lobster Zone Exit Ratio Calculation?

Rules for Limited Entry Zones – Title 12 MRSA §6448 (2)(C)

The commissioner shall adopt rules that establish an exit ratio between the number of trap tags retired by individuals who declared that zone as their declared lobster zone in the year prior to the previous calendar year, but who did not declare that zone as their declared lobster zone in the previous calendar year, and the number of trap tags issued to new zone entrants authorized under subsection 7...

Exceptions – Title 12 MRSA §6448 (8)(A)(B)(C)(D)

A. A person who is under 18 years of age who successfully completed the requirements of the apprentice program under section 6422 or 6475 and who submitted documentation of completion of the apprentice program to the department before attaining 18 years of age may declare any zone as that person's declared lobster zone as long as the individual has met all apprentice program rules that may have been adopted in that zone.

B. A person who is issued a Class I, Class II or Class III lobster and crab fishing license on appeal pursuant to section 6310, subsection 2, paragraph A, subparagraph (1) or (2) may declare as that person's declared lobster zone the zone in which the person was authorized to fish a majority of that person's lobster traps in the most recent year in which the person held a license.

*C. A person who is issued a Class I, Class II or Class III lobster and crab fishing license pursuant to section 6421, subsection 5, paragraph D may declare as that person's declared lobster zone the zone in which the person was authorized to fish a majority of that person's lobster traps in the most recent year in which the person held a license. ***

D. A person who is issued a Class I, Class II or Class III lobster and crab fishing license and is 70 years of age or older may declare any zone as that person's declared lobster zone.

What steps are taken to determine the number of new entrants for each zone?

- Verify how many people left each zone and with how many tags they left with by figuring out who did not purchase a 2008 lobster license.
- Determine how many people entered each zone, whether it was by last year's new entrant exit ratio, medical waiver or military waiver.
- The above mentioned records are manually double checked for accuracy. A list is made of how people got in and who got out or transferred into a different zone.
- The number of new zone entrants is based on the number of trap tags retired by individuals who did not renew their commercial license.
- The number of new zone entrants must be determined by dividing the number of trap tags available from license holders who did not renew their commercial license by the exit ratio established for that zone. The number of new zone entrants must be rounded down to the nearest whole number, and the remaining trap tags carried over to the following year's allocation.
- New Zone Entrants and Issues include: individuals off the waiting list; over 70 and under age 18, exceptions and medical or military appeals.

***Title 12 M.R.S.A 6421 (5)(D)*

D. Did not possess a Class I, Class II or Class III lobster and crab fishing license in the previous calendar year because the commissioner had suspended the person's license privileges for a length of time that included the previous calendar year.

Memo

To: Lobster Zone Council Members
From: Jessica McKay, Acting License Eligibility Specialist
Date: February 2, 2009– Posted on Internet
Re: 2009 New Zone Entrants for Limited-Entry Lobster Zones

As required by Maine's limited entry law, Title 12 M.R.S.A. §6448, the Commissioner of Marine Resources has determined the number of new zone entrants that may be authorized for each limited-entry lobster zone. Of the seven lobster zones, six zones have adopted regulations to limit the number of new zone entrants.

In accordance with 12 MRSA §6448 sub-§7, limited entry zones may adopt exit ratios to establish the number of licenses that may be issued to new zone entrants, based on the number of trap tags retired by individuals who did not renew their commercial license. The number of new zone entrants must be determined by dividing the number of trap tags available from license holders who did not renew their commercial license by the zone trap limit. The number of new zone entrants must be rounded down to the nearest whole number, and the remaining trap tags carried over to the following year's allocation.

Exceptions to the limited-entry process, such as medical and military waivers, are excluded from the totals for the purposes of calculating the number of new zone entrants as required by the limited-entry law.

Each lobster limited-entry zone has established an exit ratio to determine how many tags must be retired (not renewed) in order for a new zone entrant to be allowed into the zone. Following are the number of licenses awarded in 2009 for each limited-entry zone based on the exit ratio for that zone:

Zone A: 5 licenses awarded; based on a 1:3 Exit Ratio (1 new license for every 2,400 tags)
Zone B: 0 licenses awarded; based on a 1:5 Exit Ratio (1 new license for every 4,000 tags)
Zone D: 3 licenses awarded; based on a 1:5 Exit Ratio (1 new license for every 4,000 tags)
Zone E: 1 license awarded; based on a 1:5 Exit Ratio (1 new license for every 3,000 tags)
Zone F: 3 licenses awarded; based on a 1:5 Exit Ratio (1 new license for every 4,000 tags)
Zone G: 0 licenses awarded; based on a 1:5 Exit Ratio (1 new license for every 4,000 tags)

Certified letters have been sent to those individuals on the waiting list that are now authorized to purchase a 2009 license. These individuals have 30 days to buy their 2009 lobster and crab fishing license for that limited-entry zone or the next person on the waiting list is offered the slot.

Questions about the lobster licensing process should be addressed to License Eligibility Specialist, Department of Marine Resources, (207) 624-6549.
