

**Forest & Shade Tree - Insect & Disease Conditions for Maine
Reports for the 2007 Season**

Sign Up/Renewal Form

Field season is rapidly descending upon us and it is time to firm up spring and summer plans. Please take a moment in this process to consider whether or not you wish to continue to receive our conditions reports and alerts. Please note that there is a place on this form to indicate if you wish to receive this document electronically. This form provides a good handy source for future reference and a backup for electronic glitches. If you prefer to check for updates on your own we plan to provide timely and pertinent information via our website. Our website will be especially useful for special alerts and quarantine information. The I&D Lab will still maintain information sheets on a variety of pest problems, available also on our website, and will continue with diagnostic services as time and manpower permit.

You must complete and return this form if you wish to remain/be on our mailing list. If you are now on our mailing list, a copy of your present mailing label is attached. If the current label is correct, simply check "label OK" and fill in your current telephone number, e-mail address and check your area of interest. If you must make changes please do so on the old label. If no label is attached, fill out all blank spaces. Please be sure to follow the name/address format specified. **ALL ADDRESSES MUST BEGIN WITH INDIVIDUAL'S NAMES**, not corporations or position titles. Please take a moment to fill this out. **No one will be added to or kept on our mailing list automatically.**

Please type or print legibly
