

The Maine Department of Education-Career Technical Education is requesting your input. MDOE-CTE, Maine Administrators of Career and Technical Education and Maine Department of Labor will be meeting to discuss how best to invest MDOL's "American Recovery and Reinvestment Act of 2009" funds which are soon to be allotted.

One area of great interest is Maine's ever growing "Green" industries and "Green" business approaches. This survey will help to bring to light CTE's commitment to this belief and new occupations. With your input, we hope to MDOL will see our centers/regions has a means to invest their funds into tomorrow's jobs.

This survey involves you providing "Green" examples of your methods, technologies, approaches, and practices. Question #1 will ask for your center/region and then Question #2 requests selection of your program. Question #3 thru to the end of the survey will be asking to enter your examples of "Green". Please enter your example into the provided textbox and then select the type of "Green" that closely matches your example.

The following are examples of the different types of "Green" to select from:

Green Technology

--Solar, Wind, Hydro, Tidal, Wave, Geothermal, Biofuels, Biomass, Fuel Cell, etc...

Green Approach

--Super insulated walls, closed-mold, LEED rating, water efficiency, indoor environmental quality, etc...

Green Practice

--Sustainable Renewable Resources, Recycled materials, Recycled used oil, etc...)

Greener Approach

--Bio-friendly chemicals, natural cleaning approach, recycling, etc...)

Other

DEMO:

**Question1**

**\*Question1**  
**Please provide an Example (example: solar panels to power electric car)**

**Please roughly select the type of "Green"**

- Green Technology (few examples: Solar, Wind, Hydro, Tidal, Wave, Geotherma
- Green Approach (few examples: super insulated walls, closed-mold, LEED rating
- Green Practice (few examples: Sustainable Renewable Resources, Recycled Ma
- Greener Approach (few examples: Bio-friendly chemicals, natural cleaning appr

← (1) Input example

} (2) Select Type

← (3) Click "Next"

You can provide up to (10) examples per survey. Once you reach the end, you will have an option to continue onto another survey to input more examples. If you have less than (10) examples, you are welcomed to exit the survey at any time. Once you have entered in your last example and have selected the "Green" type, please click the "NEXT" button (see input instructions above). In the question following your last example, please select "End of examples to input--EXIT Survey" and then click "Next".

**DO THIS ONCE YOU HAVE ENTERED IN ALL YOUR EXAMPLES**

The screenshot shows a survey question on a light green background. At the top, it says "\*\*\*\*Question4" in bold. Below that is the instruction "Please provide an Example (example: solar panels to power electric car)" in bold. There is a white text input field. Below the input field is the instruction "Please roughly select the type of 'Green'" in bold. There are six radio button options: "Green Technology (few examples: Solar, Wind, Hydro, Tidal, Wave, Geotherm)", "Green Approach (few examples: super insulated walls, closed-mold, LEED rat)", "Green Practice (few examples: Sustainable Renewable Resources, Recycled M)", "Greener Approach (few examples: Bio-friendly chemicals, natural cleaning app)", "Other", and "End of examples to input--EXIT Survey". An arrow points from the text "(1) Select End" to the "End of examples to input--EXIT Survey" option. At the bottom right of the form are two buttons: "Prev" and "Next". An arrow points from the text "(2) Click 'Next'" to the "Next" button.

This brings you to the end of the analysis.

Thank you for taking the time to complete this survey. We hope your input and examples will help increase the "American Recovery and Reinvestment Act of 2009" funds for your center/region.

Have a great day,

Shawn Lagasse
