## **NanoTeach Pilot for Summer 2010**

NanoTeach is recruiting teachers for a year-long, nationwide pilot program starting in the summer of 2010. Utilizing the Designing Effective Science Instruction (DESI) framework, teachers will learn to integrate nanoscience and technology content (NS&T) into their existing curricula. Through lessons and experiences that model the DESI instructional framework, participants will investigate dynamic NS&T content while delving into strategies that support effective science teaching.

**Jan 8, 2010:** Pilot Test Applications Due

**July 12–23, 2010:** NanoTeach commences with two-weeks of professional development in Denver

Participants receive a \$3,000 stipend and paid travel and lodging to Denver, Colorado.
