

# Using the *Preparation for Transitions* Flow Chart

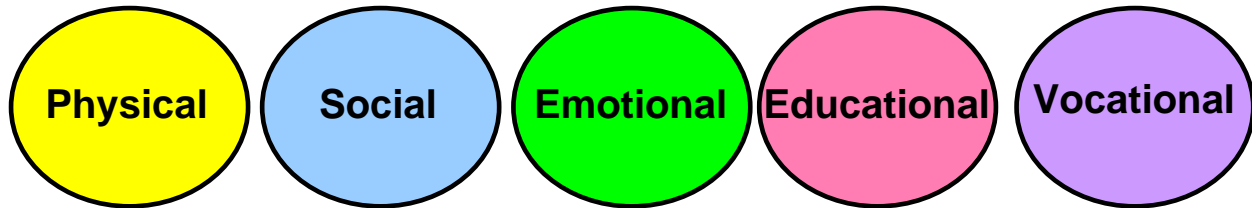

The flow chart is designed for the use of teams planning a student's high school program and beyond.

The suggested process for its use includes:

- Step 1** Discussion of Post-secondary objectives in the five areas identified above the chart.
- Step 2** Identification of the program areas to be discussed by the team (first column on both pages).
- Step 3** A review and determination of needed classes, programs and services to reach the post-secondary goals. This review should begin at Year 4 (fifth column) and proceed right to left year by year in order to ensure seamless connections across time and readiness for success beyond the student's school program.
