

Traffic Alert

Southbound I-95 Exit 109 B Closing July 6th

Construction of the three-year, \$3.8 million project between Edison Drive and Prescott Road has wrapped up. Now, work begins on the section of Western Avenue from Edison Drive to the Western Avenue Rotary. The work necessitates a full, 30-day closure of the I-95 southbound 109 B exit that sends Western Avenue traffic west towards Manchester. Traffic that would normally use the 109 B exit is being detoured to 109 A. Scheduled to begin June 28th, this Western Avenue project involves utility work, removing the existing road surface and paving. Work will be done between 7pm and 6am Sunday nights through Friday mornings.

MaineDOT regrets this inconvenience and encourages motorists to drive safely. Thank you.

Construction is weather-dependent, so schedules are subject to change.
