GOVERNOR

STATE OF MAINE
DEPARTMENT OF TRANSPORTATION
16 STATE HOUSE STATION
AUGUSTA, MAINE 04333-0016

David Bernhardt
COMMISSIONER

October 22, 2013
Subject: **Auburn**
Federal Project No: STP-1159(920)X
State WIN: 011599.20
Amendment No. 4

Dear Sir/Ms:

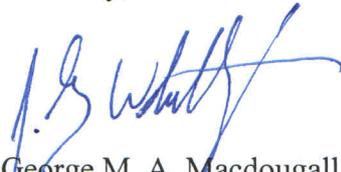

The following question has been received:

Question: based on a recent site visit, the steel bin material has a coating with fibrous appearance. Similar coating material found on a soil nail/bin wall replacement project in Connecticut was found to contain Asbestos. Installation of the soil nails in Auburn will require the penetration of the coated steel that will disturb the potential ACM coating. Please advise as to how the Department will pay for the costs of evaluation, handling, disposal and schedule impacts caused by ACM coating, if present.

Response: Asbestos is not anticipated to be encountered, if it is, a contract modification will be written and the contractor would be compensated for any and all efforts associated.

Consider this information prior to submitting your bid on October 23, 2013.

Sincerely,

foe 
George M. A. Macdougall P.E.
