Cover Memo Describing List of Attachments.

These four attachments include updated information that will be presented and discussed at the September 13, 2005 Interagency Meeting;

- *Comparison of Transportation Alternatives* – This document compares the 4 corridors/alternatives carried forward in the ACOE Phase I letter and describes each alternatives ability to satisfy the ACOE basic project purpose for the LEDPA determination.
- *Crash frequency tech memo* – This document describes the methodology that led to the revision of the High Crash Location (HCL) figures in Table-2-1 (Revised Attachment “J”).
- *Revised Responses to Substantive Comments* – These are revisions to the Draft Responses to Substantive Comments that were provided to the Agencies at the April 2005 Interagency meeting. All of the attachments, except for Attachment “J” are the same as those provided at the April 2005 interagency meeting and have not been included with these attachments.
- *Revised Table 2-1 – Revised Attachment “J”* – This is the updated transportation table referenced in the “*Comparison of Transportation Alternatives*” & the “*Revised Responses to Substantive Comments*”.
