CONSTRUCTION IN 2014**

# Bremen New Access

# Camden Pier Expansion Repair

# Eastport New Ramp

Freeport Floats, Pier

# Freeport New Access

# Kittery Float Repair and Expansion

A photograph of a concrete wave screen structure supported by wooden pilings in a body of water. The structure consists of several large, rectangular concrete blocks stacked vertically, with a screen-like texture on the lower portion. The blocks are supported by a network of weathered wooden pilings and beams. The water is a greenish-brown color, and the sky is overcast. The text "Lincolnville" is overlaid in a dark blue, serif font in the upper left quadrant, and "Wave Screen" is overlaid in the same font below it.

**Lincolnville**
