

Traffic Alert

Western Ave Bridge in Fairfield Temporarily Closing

The \$2 million bridge deck replacement will be completed by November

The Western Avenue Bridge in Fairfield crosses over I-95 and will be temporarily closed to all traffic on Thursday, July 7th from 9:30 pm to 5 am. During this time, crews will be lifting the bridge slightly in order to install new bridge bearings. There will be a signed detour route.

From July 11th until July 30th, there will be several daytime lane closures with alternating one-way traffic on Route 139 near Western Avenue and the bridge while crews install traffic signals and finish installation of the new bearings. Motorists should expect delays from 9 am to 4:30 pm.

From July 30th through October 3rd, there will be alternating one-way traffic on the bridge, as well as occasional overnight closures of the bridge and I-95. Motorists should expect delays. Message boards in that vicinity will provide advance notification of intermittent closures.

MaineDOT regrets this inconvenience and encourages motorists to drive safely. Thank you.

Construction is weather-dependent, so schedules are subject to change.
