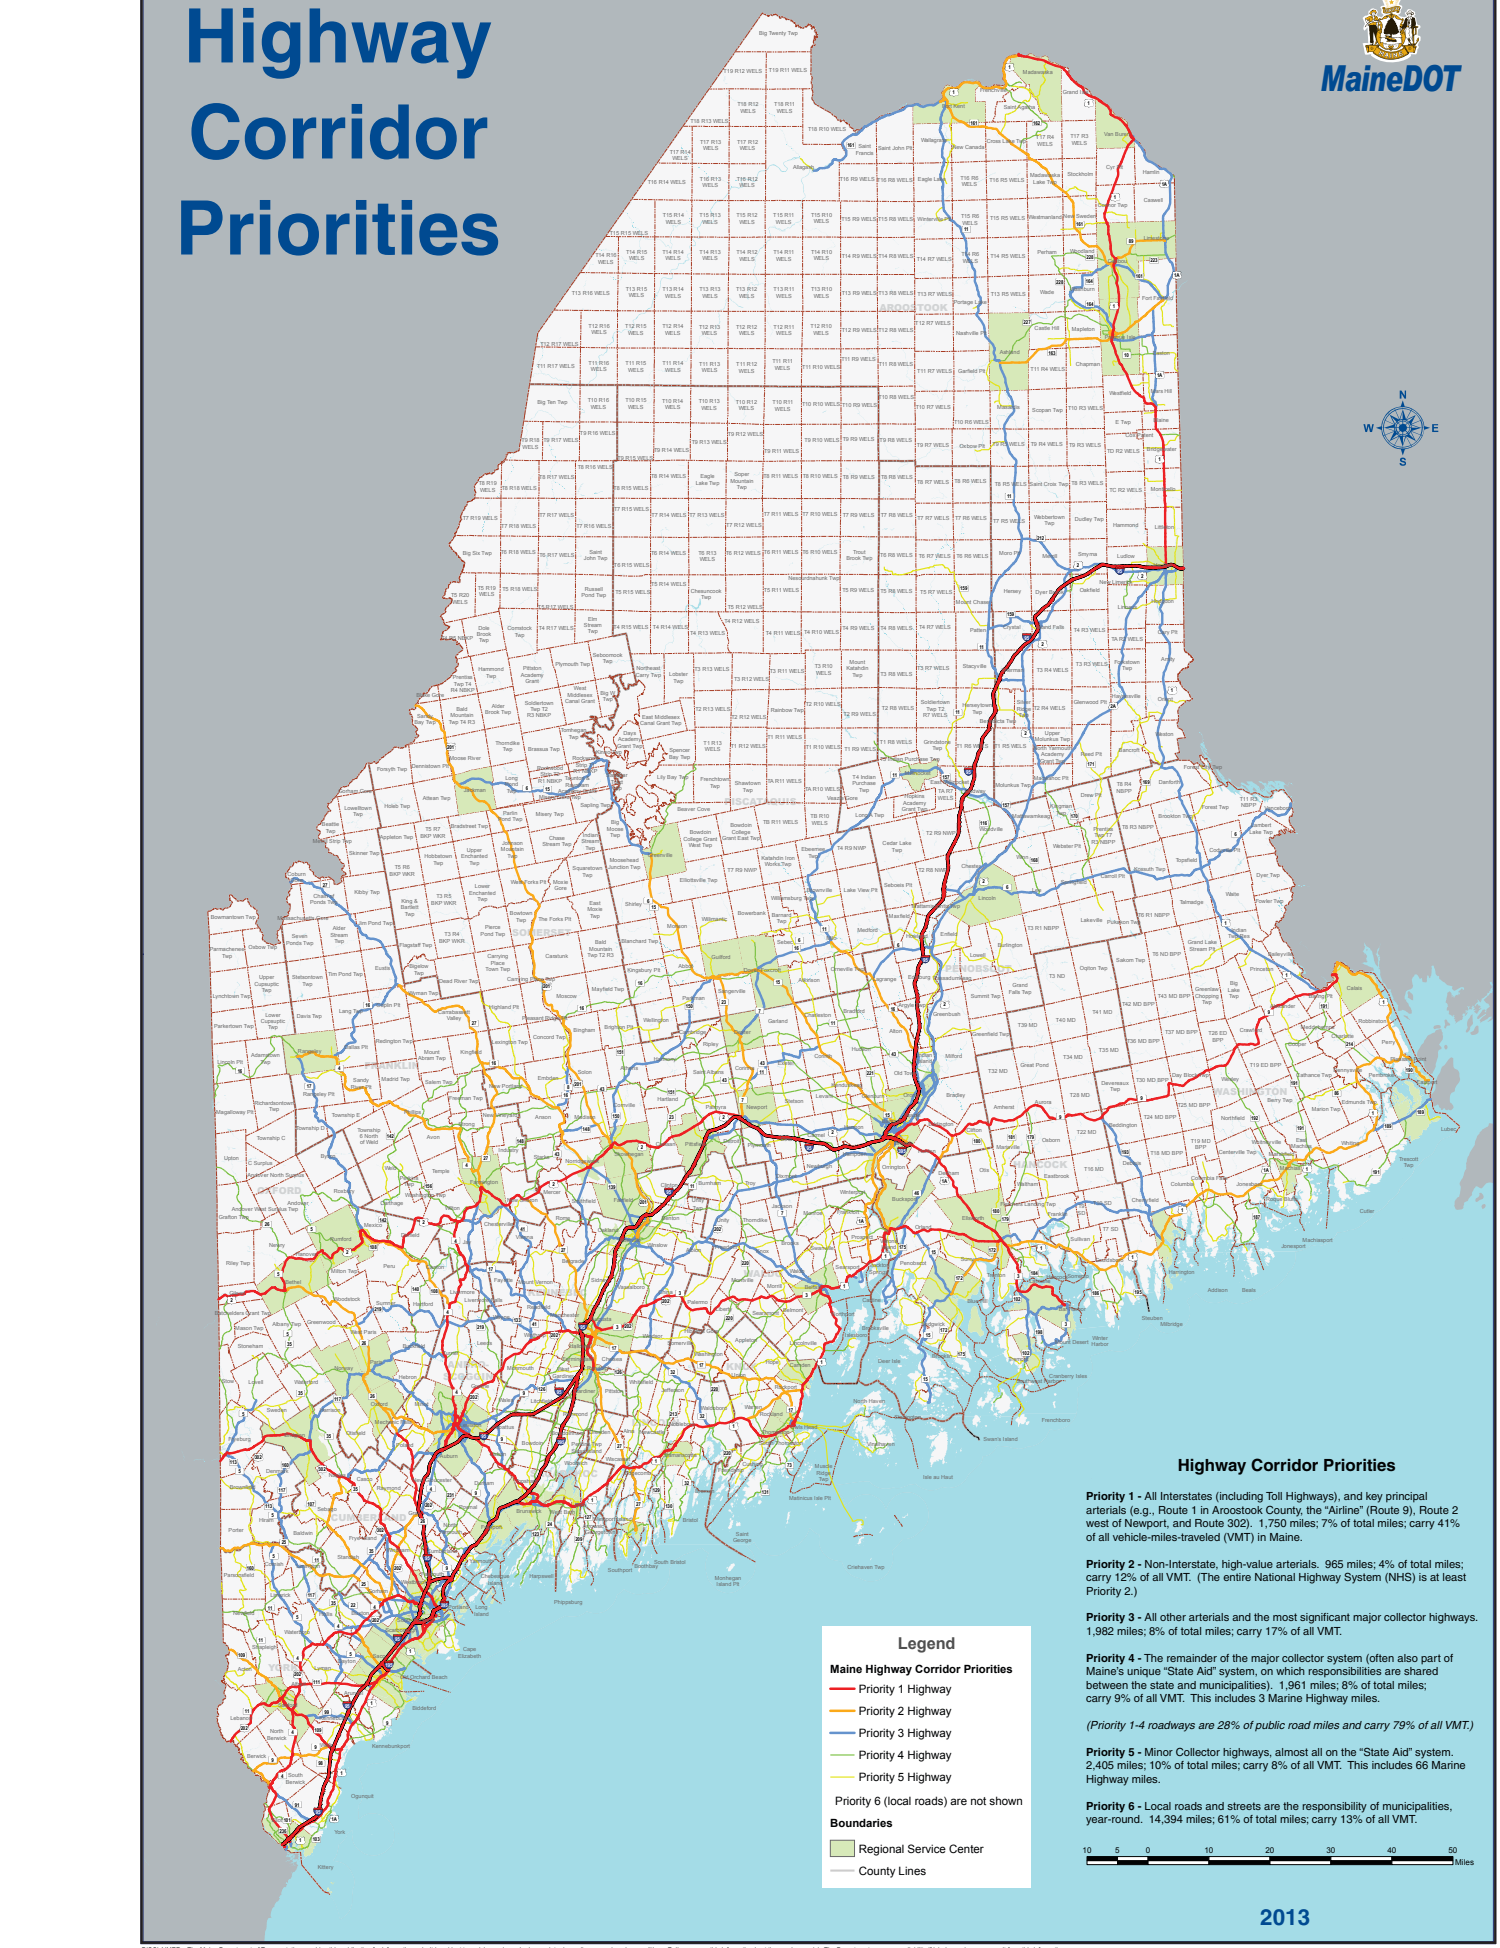
Highway Corridor Priorities

MaineDOT



Highway Corridor Priorities

Priority 1 - All Interstates (including Toll Highways), and key principal arterials (e.g., Route 1 in Aroostook County, the "Airline" (Route 9), Route 2 west of Newport, and Route 302). 1,750 miles; 7% of total miles; carry 41% of all vehicle-miles-traveled (VMT) in Maine.

Priority 2 - Non-Interstate, high-value arterials. 965 miles; 4% of total miles; carry 12% of all VMT. (The entire National Highway System (NHS) is at least Priority 2.)

Priority 3 - All other arterials and the most significant major collector highways. 1,982 miles; 8% of total miles; carry 17% of all VMT.

Priority 4 - The remainder of the major collector system (often also part of Maine's unique "State Aid" system, on which responsibilities are shared between the state and municipalities). 1,961 miles; 8% of total miles; carry 9% of all VMT. This includes 3 Marine Highway miles.

(Priority 1-4 roadways are 28% of public road miles and carry 79% of all VMT.)

Priority 5 - Minor Collector highways, almost all on the "State Aid" system. 2,405 miles; 10% of total miles; carry 8% of all VMT. This includes 66 Marine Highway miles.

Priority 6 - Local roads and streets are the responsibility of municipalities, year-round. 14,394 miles; 61% of total miles; carry 13% of all VMT.
