Inventory Data for Municipal Growth Management Plans

Resource: Prehistoric Archaeological Sites: Arthur Spiess
 Historic Archaeological Sites: Leon Cranmer
 Historic Buildings/Structures/Objects: Kirk Mohney

Municipality: CUMBERLAND.

Inventory data as of April 10, 2009 :

10 prehistoric archaeological sites are known, all located on island shorelines or the mainland shore (coastal zone).

Needs for further survey, inventory, and analysis:

Much of the coastal zone has been surveyed by professional archaeologists. Those portions of the coastal zone that have not been surveyed should be surveyed. Inland areas that need survey are limited to the shore of Forrest Lake and the valleys of some small drainages that flow through well drained soils.
