

# MAINE HISTORIC PRESERVATION COMMISSION

## Inventory Data for Municipal Growth Management Plans

Resource:      X   Prehistoric Archaeological Sites: Arthur Spiess  
                  \_\_\_ Historic Archaeological Sites: Robert Bradley  
                  \_\_\_ Historic Buildings/Structures/Objects: Kirk Mohney

Municipality:   Damariscotta  

---

Inventory data as of   April 22, 2009  :

Nine sites known. One on shore of Pemaquid Pond, one on shore south of downtown, rest on shore of Salt Bay and islands in Salt Bay.

National Register Historic District includes many sites around Salt Bay.

---

Needs for further survey, inventory, and analysis:

Shorelines of Muddy, Little, Biscay, and Pemaquid Ponds considered archaeologically sensitive until archaeological survey completed, need archaeological survey.

Oyster Creek shoreline needs archaeological survey. Damariscotta River shoreline south of Route 1, and between Rt 1 and Rt 1A needs survey.
