

MIDAS # 2332

STETSON POND

PHILLIPS TWR, FRANKLIN CO., MAINE

11 ACRES

STETSON POND

Phillips, Franklin County
U.S.G.S. Madrid, Maine (7½')

Fishes

Brook trout
Minnows
Redbelly dace

Redbreast sunfish
American eel

Physical Characteristics

Area - 11 acres

Maximum depth - 36 feet

Principal fisheries: Brook trout

Temperatures:

Surface - 70°F
35 feet - 42°F

Stetson Pond is located northeast of Noon Mountain. The pond has no major inlets, but its outlet flows southeast into Lufkin Pond. The pond's shoreline is undeveloped.

Water quality in Stetson Pond is good for coldwater gamefish. Adequate areas for spawning and nursery are lacking, so brook trout are stocked annually to provide a fishery. Growth is good with only light competition from other fish species.

Stetson Pond is accessible via a series of rough, gravel logging roads off Route 4. It is open to fishing with the use of live fish as bait being prohibited in the open water season. The pond is closed to fishing in the winter months. See the lawbook for additional regulations.

Surveyed - July, 1966

Resurveyed - 1996
