By providing this notice, Cyprexx does not waive any rights or defenses regarding the applicability of Maine law, the applicability of the Maine data event notification statute, or personal jurisdiction.

Nature of the Data Event

On or about June 14, 2021, Cyprexx discovered their network experienced a sophisticated cyberattack. Cyprexx moved quickly to shut the impacted systems down and secure the network and began an investigation to identify what happened and confirm what information may have been affected. Through the investigation, it was determined that an unauthorized actor may have had access to certain Cyprexx systems that stored company information between May 20, 2021 and June 10, 2021. Cyprexx conducted a thorough and time-sensitive review of the potentially impacted data to identify individuals with information potentially at risk. On September 15, 2021, Cyprexx finalized this review to confirm the nature and scope of impacted data and the individuals to whom that data related.

Although there is no evidence of any actual or attempted misuse of the information stored on these systems, Cyprexx provided notice out of an abundance of caution because they determined certain personal information was present on these systems at the time of the incident, and may have been accessed or viewed. The information that could have been subject to unauthorized access includes name, address, and Social Security number.

Notice to Maine Residents

On or about November 10, 2021, Cyprexx provided written notice of this incident to all affected individuals, which includes three (3) Maine residents. Written notice is being provided in substantially the same form as the letter attached here as *Exhibit A*.

Other Steps Taken and To Be Taken

Upon discovering the event, Cyprexx moved quickly to investigate and respond to the incident, assess the security of Cyprexx systems, and notify potentially affected individuals. Cyprexx is also working to implement additional safeguards and training to its employees. Cyprexx is providing access to credit monitoring services for one (1) year, through Experian, to individuals whose personal information was potentially affected by this incident, at no cost to these individuals.

Additionally, Cyprexx is providing impacted individuals with guidance on how to better protect against identity theft and fraud, including advising individuals to report any suspected incidents of identity theft or fraud to their credit card company and/or bank. Cyprexx is providing individuals with information on how to place a fraud alert and security freeze on one's credit file, the contact details for the national consumer reporting agencies, information on how to obtain a free credit report, a reminder to remain vigilant for incidents of fraud and identity theft by reviewing account statements and monitoring free credit reports, and encouragement to contact the Federal Trade Commission, their state Attorney General, and law enforcement to report attempted or actual identity theft and fraud.

We encourage you to remain vigilant against incidents of identity theft and fraud, to review your account statements, and to monitor your credit reports for suspicious activity. Under U.S. law, a consumer is entitled to one free credit report annually from each of the three major credit reporting bureaus, Equifax, Experian, and TransUnion. To order your free credit report, visit www.annualcreditreport.com or call, toll-free, 1-877-322-8228. You may also directly contact the three major credit reporting bureaus listed below to request a free copy of your credit report.

Consumers have the right to place an initial or extended “fraud alert” on a credit file at no cost. An initial fraud alert is a 1-year alert that is placed on a consumer’s credit file. Upon seeing a fraud alert display on a consumer’s credit file, a business is required to take steps to verify the consumer’s identity before extending new credit. If you are a victim of identity theft, you are entitled to an extended fraud alert, which is a fraud alert lasting seven years. Should you wish to place a fraud alert, please contact any one of the three major credit reporting bureaus listed below.

As an alternative to a fraud alert, consumers have the right to place a “credit freeze” on a credit report, which will prohibit a credit bureau from releasing information in the credit report without the consumer’s express authorization. The credit freeze is designed to prevent credit, loans, and services from being approved in your name without your consent. However, you should be aware that using a credit freeze to take control over who gets access to the personal and financial information in your credit report may delay, interfere with, or prohibit the timely approval of any subsequent request or application you make regarding a new loan, credit, mortgage, or any other account involving the extension of credit. Pursuant to federal law, you cannot be charged to place or lift a credit freeze on your credit report. To request a security freeze, you will need to provide the following information:

1. Full name (including middle initial as well as Jr., Sr., II, III, etc.);
2. Social Security number;
3. Date of birth;
4. Addresses for the prior two to five years;
5. Proof of current address, such as a current utility bill or telephone bill;

6. A legible photocopy of a government-issued identification card (state driver's license or ID card, etc.); and
7. A copy of either the police report, investigative report, or complaint to a law enforcement agency concerning identity theft if you are a victim of identity theft.

Should you wish to place a credit freeze, please contact the three major credit reporting bureaus listed below:
