Nature of the Data Event

On June 28, 2020, USAP became aware of suspicious activity on its computer network. USAP immediately launched an investigation, with the assistance of third-party computer forensic specialists, and determined that its network had been infected with malware which prevented access to certain files on the system. The investigation determined that the malware was introduced into the system by an unauthorized actor who also accessed and acquired certain files in USAP's system. The unauthorized access occurred between June 21, 2020 and June 28, 2020. USAP then began a lengthy and labor-intensive process to identify sensitive information that may have been contained within accessible files, and to identify the individuals whose information may have been impacted. USAP then worked to identify contact information for the impacted individuals. That process completed on January 8, 2021. USAP is notifying those individuals whose personal information may have been impacted.

The impacted information varied by Maine resident but included name, address, Social Security number, and driver's license number.

Notice to Maine Residents

On or about February 1, 2021, USAP is providing written notice of this incident to all affected individuals, which includes approximately three (3) Maine residents. A sample of the letter is attached hereto and labeled as ***Exhibit A***.

Other Steps Taken and To Be Taken

Upon discovering the event, USAP moved quickly to investigate and respond to the incident, assess the security of USAP systems, and notify potentially affected individuals. USAP is also working to implement additional safeguards and training to its employees. USAP is providing affected individuals whose personal information was potentially affected by this incident with access to one year of credit monitoring services through TransUnion at no cost to these individuals.

Additionally, USAP is providing impacted individuals with guidance on how to better protect against identity theft and fraud, including advising individuals to report any suspected incidents of identity theft or fraud to their credit card company and/or bank. USAP is providing individuals with information on how to place a fraud alert and security freeze on one's credit file, the contact details for the national consumer reporting agencies, information on how to obtain a free credit report, a reminder to remain vigilant for incidents of fraud and identity theft by reviewing account statements and monitoring free credit reports, and encouragement to contact the Federal Trade Commission, their state Attorney General, and law enforcement to report attempted or actual identity theft and fraud. USAP is also reporting this matter to other regulators as required.

Enrolling in this service will not affect your credit score.

Monitor Your Accounts.

To protect against the possibility of identity theft or other financial loss, we encourage you to remain vigilant, to review your account statements, and to monitor your credit reports for suspicious activity.

Credit Reports.

Under U.S. law, you are entitled to one free credit report annually from each of the three major credit reporting bureaus. To order your free credit report, visit www.annualcreditreport.com or call, toll-free, 1-877-322-8228. You may also contact the three major credit bureaus directly to request a free copy of your credit report.

Security Freeze.

You have the right to place a "security freeze" on your credit report, which will prohibit a consumer reporting agency from releasing information in your credit report without your express authorization. The security freeze is designed to prevent credit, loans, and services from being approved in your name without your consent. However, you should be aware that using a security freeze to take control over who gets access to the personal and financial information in your credit report may delay, interfere with, or prohibit the timely approval of any subsequent request or application you make regarding a new loan, credit, mortgage, or any other account involving the extension of credit. Pursuant to federal law, you cannot be charged to place or lift a security freeze on your credit report. Should you wish to place a security freeze, please contact the major consumer reporting agencies listed below:

Experian	**TransUnion**	**Equifax**
PO Box 9554	PO Box 160	PO Box 105788
Allen, TX 75013	Woodlyn, PA 19094	Atlanta, GA 30348-5788

www.experian.com/freeze/center.html	www.transunion.com/credit-freeze	www.equifax.com/personal/credit-report-services

To request a security freeze, you will need to provide the following information:

1. Your full name (including middle initial as well as Jr., Sr., II, III, etc.);
2. Social Security number;
3. Date of birth;
4. If you have moved in the past five (5) years, provide the addresses where you have lived over the prior five (5) years;
5. Proof of current address, such as a current utility bill or telephone bill;
6. A legible photocopy of a government-issued identification card (state driver's license or ID card, military identification, etc.);
7. If you are a victim of identity theft, include a copy of either the police report, investigative report, or complaint to a law enforcement agency concerning identity theft.

Fraud Alert.

As an alternative to a security freeze, you have the right to place an initial or extended "fraud alert" on your file at no cost. An initial fraud alert is a 1-year alert that is placed on a consumer's credit file. Upon seeing a fraud alert display on a consumer's credit file, a business is required to take steps to verify the consumer's identity before extending new credit. If you are a victim of identity theft, you are entitled to an extended fraud alert, which is a fraud alert lasting seven years. Should you wish to place a fraud alert, please contact any one of the agencies listed below:
