EXHIBIT 1

We represent Perkins & Co ("Perkins") located at 1211 SW 5th Ave #1000 Portland, OR 97204, and are writing to notify your office of an incident that may affect the security of certain personal information relating to one hundred and forty-nine (149) Maine residents. This notice may be supplemented with any new significant facts learned subsequent to its submission. By providing this notice, Perkins does not waive any rights or defenses regarding the applicability of Maine law, the applicability of the Maine data event notification statute, or personal jurisdiction.

Nature of the Data Event

On or about December 3, 2020, Netgain Technologies ("Netgain"), a vendor Perkins uses for hosting its data in the cloud, alerted Perkins to the fact that Netgain suffered a ransomware attack (the "Incident"). Upon learning of the Incident, Perkins was in regular communication with Netgain to determine the full impact of the Netgain Incident as it related to Perkins and Perkins' data as quickly as possible.

On January 15, 2021, Netgain confirmed the following: between November 8, 2020, and December 3, 2020, an unauthorized actor accessed Netgain servers that store Perkins' data, some of which the authorized actor copied and stole. The unauthorized actor also encrypted files and demanded a ransom payment be made by Netgain in exchange the return of stolen files, as well as a decryption key. Netgain paid an undisclosed ransom, and the unauthorized actor returned the files they had stolen and provided Netgain with a decryption key. Per Netgain, law enforcement, and the cybersecurity specialists that Netgain engaged, the attacker group is not known to post any data, nor keep any copies of stolen data once the ransom is paid. Nevertheless, Perkins considers any data that was accessible to or acquired by the attacker to be at risk.

Upon becoming aware of the Incident, Perkins conducted its own detailed review to determine what information should be considered at risk as a result of the Netgain Incident. This included a comprehensive and time-consuming months-long programmatic and manual review of all files contained on the impacted systems to determine the types of personal information stored therein and identify the individuals to whom the personal information relates. Perkins then conducted additional lengthy review of its internal files to confirm contact information for impacted individuals in order to provide notification of the Incident.

Perkins confirmed that personal information relating to individuals was at risk. The impacted information may vary by individual, but includes name, Social Security number, and financial account information.

Notice to Maine Residents

On May 26, 2022, Perkins began providing written notice of this Incident to affected individuals, which includes one hundred and forty-nine (149) Maine residents. Written notice is being provided in substantially the same form as the letter attached hereto as ***Exhibit A***.

Other Steps Taken and To Be Taken

Upon becoming aware of the Incident, Perkins moved quickly to investigate and respond to the Incident and notify potentially affected individuals. Perkins is providing potentially impacted

individuals with access to complimentary credit monitoring and identity restoration services through IDX for twelve (12) months.

Additionally, Perkins is providing impacted individuals with guidance on how to better protect against identity theft and fraud, including advising individuals to report any suspected incidents of identity theft or fraud to their credit card company and/or bank. Perkins is providing individuals with information on how to place a fraud alert and security freeze on one's credit file, the contact details for the national consumer reporting agencies, information on how to obtain a free credit report, a reminder to remain vigilant for incidents of fraud and identity theft by reviewing account statements and monitoring free credit reports, and encouragement to contact the Federal Trade Commission, their state Attorney General, and law enforcement to report attempted or actual identity theft and fraud.

Re: Notice of Data Breach

Dear <<First Name>> <<Last Name>>:

Perkins & Co ("Perkins") is a privately held accounting firm located in Portland, Oregon, and provides accounting and tax services to both individuals and organizations. Perkins is writing to provide details about a cybersecurity incident that affected Netgain, a vendor we use to store data in the cloud. At this time, we remain unaware of any significant increase in suspicious activity to indicate that Perkins' client or employee information has been misused in connection with this incident and will continue to monitor this issue. However, because your personal information may be impacted by this event, we are providing you with details about the incident, our response, and steps you can take to better protect your personal information, should you feel it appropriate to do so.

Who is Perkins & Co / Why Do You Have My Information? Perkins provides accounting and tax services to both individuals and organizations. As part of those services, Perkins handles information relating to individuals. This cybersecurity incident occurred with Netgain, Perkins' third-party data hosting vendor. **Please know that this incident did not impact the computer systems of Perkins or its clients.**

What Happened. On December 3, 2020, Netgain alerted us that they had shut down their systems and began working with outside cybersecurity specialists because of a ransomware attack on their systems that impacted our normal business operations.

On January 15, 2021, Netgain confirmed the following: Between November 8, 2020, and December 3, 2020, an attacker accessed servers storing Perkins' files, some of which they copied and stole. They also encrypted files and demanded to be paid a ransom by Netgain in exchange for returning copies of stolen files and providing a key to access encrypted files. Netgain paid a ransom, and the attacker returned the files they had stolen, along with a decryption key. As we mentioned in a prior communication, according to Netgain, law enforcement and the cybersecurity specialists they engaged, this attacker is not known to post the data, nor keep any copies of it once a ransom is paid. However, we know that there are no guarantees, and we still consider any data viewed or stolen by the attacker to be at risk. Perkins conducted a comprehensive and time-intensive review of the information stored on the impacted server hosted by Netgain, and this data review process recently concluded.

What Information Was Involved. As part of the services that Perkins provides, your information was stored on a server that Netgain reports was accessed by the attacker, though there is no indication Perkins was intentionally targeted in this attack. The following types of your personal information were stored on the server hosted by Netgain which was impacted by this event: name, and <<Variable Text - data elements>>.

What Perkins is Doing. Perkins takes the security and privacy of the personal information entrusted to us very seriously. We confirmed that Netgain has taken steps to further safeguard against future threats, including implementing additional advanced threat protection tools, resetting passwords, reviewing and restricting access rights, and hardening network security rules and protocols. Perkins reported this incident to the IRS and state tax authorities, as well as applicable state data privacy regulatory authorities.

As an added precaution, **we are offering you access to complimentary credit monitoring and identity restoration services** through IDX for a period of <<twelve (12) / twenty-four (24)>> months. Individuals who wish to receive these services must enroll by following the attached enrollment instructions.

What You Can Do. We encourage you to remain vigilant by monitoring your accounts and reviewing the enclosed *Steps You Can Take to Help Protect Your Personal Information* for additional guidance on how to protect your personal information. There you will also find more information on the credit monitoring and identity restoration services Perkins is offering and the steps you can take to enroll to receive them.

For More Information. We understand that you may have questions about this incident that are not addressed in this letter. If you have additional questions, please call our dedicated assistance line at 1-833-933-1103, available Monday through Friday, 6am to 6pm Pacific Time.

We sincerely regret any inconvenience this incident may cause you and we remain committed to safeguarding your information.

Sincerely,

Jared Holum, President
Perkins & Co

Steps You Can Take to Help Protect Your Personal Information

Enroll in Complimentary Credit Monitoring

1. Website and Enrollment. We are offering identity theft protection services through IDX, the data breach and recovery services expert. IDX identity protection services include: <<twelve (12) / twenty-four (24)>> months of tri-bureau credit and CyberScan monitoring, a $1,000,000 insurance reimbursement policy, and fully managed id theft recovery services. With this protection, IDX will help you resolve issues if your identity is compromised. Please note the deadline to enroll is August 26, 2022.

2. Activate the credit monitoring provided as part of your IDX identity protection membership. The monitoring included in the membership must be activated to be effective. Note: You must have established credit and access to a computer and the internet to use this service. If you need assistance, IDX will be able to assist you.

3. Telephone. Contact IDX at 1-833-933-1103 to gain additional information about this event and speak with knowledgeable representatives about the appropriate steps to take to protect your credit identity.

Monitor Your Accounts

We encourage you to remain vigilant against incidents of payment card fraud or misuse, to review your account statements, and to monitor your credit reports for suspicious activity. If you see any unauthorized or suspicious activity, promptly contact your bank, credit union, or credit card company.

Under U.S. law, a consumer is entitled to one free credit report annually from each of the three major credit reporting bureaus, Equifax, Experian, and TransUnion. To order your free credit report, visit www.annualcreditreport.com or call, toll-free, 1-877-322-8228. You may also directly contact the three major credit reporting bureaus listed below to request a free copy of your credit report.

Consumers have the right to place an initial or extended "fraud alert" on a credit file at no cost. An initial fraud alert is a 1-year alert that is placed on a consumer's credit file. Upon seeing a fraud alert display on a consumer's credit file, a business is required to take steps to verify the consumer's identity before extending new credit. If you are a victim of identity theft, you are entitled to an extended fraud alert, which is a fraud alert lasting seven years. Should you wish to place a fraud alert, please contact any one of the three major credit reporting bureaus listed below.

As an alternative to a fraud alert, consumers have the right to place a "credit freeze" on a credit report, which will prohibit a credit bureau from releasing information in the credit report without the consumer's express authorization. The credit freeze is designed to prevent credit, loans, and services from being approved in your name without your consent. However, you should be aware that using a credit freeze to take control over who gets access to the personal and financial information in your credit report may delay, interfere with, or prohibit the timely approval of any subsequent request or application you make regarding a new loan, credit, mortgage, or any other account involving the extension of credit. Pursuant to federal law, you cannot be charged to place or lift a credit freeze on your credit report. To request a security freeze, you will need to provide the following information:

1. Full name (including middle initial as well as Jr., Sr., II, III, etc.);
2. Social Security number;
3. Date of birth;
4. Addresses for the prior two to five years;
5. Proof of current address, such as a current utility bill or telephone bill;
6. A legible photocopy of a government-issued identification card (state driver's license or ID card, military identification, etc.); and
7. A copy of either the police report, investigative report, or complaint to a law enforcement agency concerning identity theft if you are a victim of identity theft.

Should you wish to place a fraud alert or credit freeze, please contact the three major credit reporting bureaus listed below:

Additional Information

You may further educate yourself regarding identity theft, fraud alerts, credit freezes, and the steps you can take to protect your personal information by contacting the consumer reporting bureaus, the Federal Trade Commission, or your state Attorney General. The Federal Trade Commission may be reached at: 600 Pennsylvania Avenue NW, Washington, DC 20580; www.identitytheft.gov; 1-877-ID-THEFT (1-877-438-4338); and TTY: 1-866-653-4261. The Federal Trade Commission also encourages those who discover that their information has been misused to file a complaint with them. You can obtain further information on how to file such a complaint by way of the contact information listed above. You have the right to file a police report if you ever experience identity theft or fraud. Please note that in order to file a report with law enforcement for identity theft, you will likely need to provide some proof that you have been a victim. Instances of known or suspected identity theft should also be reported to law enforcement and your state Attorney General. This notice has not been delayed by law enforcement.
