By providing this notice, HPSJ does not waive any rights or defenses regarding the applicability of Maine law, the applicability of the Maine data event notification statute, or personal jurisdiction.

Nature of the Data Event

On or about October 12, 2020, HPSJ learned of unusual activity affecting its email system. At that time, HPSJ was not aware of any unauthorized access to the email system, but immediately launched an investigation to determine the nature and scope of the event. Once HPSJ identified the affected email accounts, passwords for those email accounts were immediately changed to prevent any further access. On October 23, 2020, the investigation determined that an unknown person(s) accessed certain HPSJ employee email accounts between September 26, 2020 and October 12, 2020.

The contents of the impacted email accounts were next reviewed through a time-consuming manual and programmatic process to determine what sensitive data may have been impacted. HPSJ identified potentially impacted individuals and then began a review of internal records in an effort to ascertain address information. This process was recently completed. Although HPSJ is unaware of any actual or attempted misuse of any information, HPSJ is providing potentially impacted individuals with notification out of an abundance of caution.

The information that could have been subject to unauthorized access includes name, address, and Social Security number.

Notice to Maine Residents

On or about May 18, 2021, HPSJ began providing written notice of this incident to all affected individuals, which includes sixteen (16) Maine residents. Written notice is being provided in substantially the same form as the letter attached here as *Exhibit A*.

Other Steps Taken and To Be Taken

Upon discovering the event, HPSJ moved quickly to investigate and respond to the incident, assess the security of HPSJ systems, and notify potentially affected individuals. HPSJ is also working to implement additional safeguards and training to its employees. HPSJ is providing access to credit monitoring services for one year, through Equifax, for certain individuals whose Social Security number may have been affected by this incident, at no cost to these individuals.

Additionally, HPSJ is providing impacted individuals with guidance on how to better protect against identity theft and fraud, including advising individuals to report any suspected incidents of identity theft or fraud to their credit card company and/or bank. HPSJ is providing individuals with information on how to place a fraud alert and security freeze on one's credit file, the contact details for the national consumer reporting agencies, information on how to obtain a free credit report, a reminder to remain vigilant for incidents of fraud and identity theft by reviewing account statements and monitoring free credit reports, and encouragement to contact the Federal Trade Commission, their state Attorney General, and law enforcement to report attempted or actual identity theft and fraud.

Dear <<Name 1>>:

Health Plan of San Joaquin (“HPSJ”) is writing to let you know that one or more people outside of HPSJ have accessed some of our employee email accounts without our permission. As a result, some of your information may have been seen by them, and although HPSJ has no evidence of actual or attempted misuse of information, there is a risk that this information has been, or could be misused. We are offering free resources to help prevent this from happening to you. If you would like to use these services, you must sign up for them by <<Enrollment Deadline>>, following the directions provided in the materials that follow. This letter has more information about what happened, our response, and the free resources that can help you protect your personal information from possible misuse. The confidentiality, privacy, and security of your information is one of our highest priorities.

What Happened? On October 12, 2020, we learned of unusual activity affecting HPSJ’s email system. At that time, HPSJ was not aware of any unauthorized access to HPSJ’s email system, but we launched an investigation to learn everything we could about what happened, and brought in a computer specialist that has expertise in email security incidents like this one to assist our investigation.

From our investigation, on October 23, 2020 we learned that an unknown person(s) accessed certain HPSJ employee email accounts between September 26, 2020 and October 12, 2020. Once we identified the affected email accounts, we immediately changed the passwords for those email accounts to stop any further access by the unknown person(s).

Next, we reviewed the messages in the email accounts to determine if any personal information was in the affected HPSJ email accounts, so that we could contact anyone whose information may have been seen without authorization. We are sending you this letter because your information was present in the affected HPSJ email accounts. We do not know if your information was actually seen by the unknown person(s) who accessed the accounts. We only know that your information may have been seen because it was present in the email accounts that were accessed.

What Information Was Involved? The information present in the email accounts at the time of the incident may have included your first and last name as well as your <<Data Elements>>.

What We Are Doing. Although we do not know for sure that any of your information was seen or misused, we are notifying you about what happened so that you may take further steps to help protect yourself from identity theft or fraud if you wish to do so.

We are offering you free identity monitoring services for 12 months through Equifax (a private company with a lot of experience helping people with matters like this) as an added precaution. If you would like to use these resources, you must sign up for them by <<Enrollment Deadline>>. HPSJ will pay for the cost of these services. More information about these services is included with this letter on a separate page with the heading, “Steps You May Take To Help Protect Your Information.”

What You Can Do. We also recommend that you watch out for identity theft and any signs of fraud using your personal information. You should review your bank and credit card account statements, credit reports, and any insurance benefits or other similar forms for suspicious activity or errors. Please also read the enclosed “Steps You May Take to Help Protect Your Information.”

For More Information. We understand you may have questions that are not answered in this letter. If you have questions, please contact our free help line at 1-800-691-6229 (TTY: 1-855-535-1808), Monday through Friday, between 6:00 a.m. and 6:00 p.m. Pacific Time. An interpreter will be provided free of charge if you need it.

Protecting your information and protecting you from identity theft or fraud is very important to us, and we are committed to working with you to make sure that happens.

Sincerely,

Health Plan of San Joaquin

Watch Your Financial Accounts Carefully

Under U.S. law, a consumer is entitled to one free credit report annually from each of the three major credit reporting bureaus, Equifax, Experian, and TransUnion. To order your free credit report, visit www.annualcreditreport.com or call, toll-free, 1-877-322-8228. You may also directly contact the three major credit reporting bureaus listed below to request a free copy of your credit report.

Consumers have the right to place an initial or extended “fraud alert” on a credit file at no cost. An initial fraud alert is a 1-year alert that is placed on a consumer’s credit file. Upon seeing a fraud alert display on a consumer’s credit file, a business is required to take steps to verify the consumer’s identity before extending new credit. If you are a victim of identity theft, you are entitled to an extended fraud alert, which is a fraud alert lasting seven years. Should you wish to place a fraud alert, please contact any one of the three major credit reporting bureaus listed below.

As an alternative to a fraud alert, consumers have the right to place a “credit freeze” on a credit report, which will prohibit a credit bureau from releasing information in the credit report without the consumer’s express authorization. The credit freeze is designed to prevent credit, loans, and services from being approved in your name without your consent. However, you should be aware that using a credit freeze to take control over who gets access to the personal and financial information in your credit report may delay, interfere with, or prohibit the timely approval of any subsequent request or application you make regarding a new loan, credit, mortgage, or any other account involving the extension of credit. Pursuant to federal law, you cannot be charged to place or lift a credit freeze on your credit report. To request a security freeze, you will need to provide the following information:

1. Full name (including middle initial as well as Jr., Sr., II, III, etc.);
2. Social Security number;
3. Date of birth;
4. Addresses for the prior two to five years;
5. Proof of current address, such as a current utility bill or telephone bill;
6. A legible photocopy of a government-issued identification card (state driver’s license or ID card, etc.); and
7. A copy of either the police report, investigative report, or complaint to a law enforcement agency concerning identity theft if you are a victim of identity theft.

Should you wish to place a credit freeze, please contact the three major credit reporting bureaus listed below:
