Dear Sample A. Sample:

Re: NOTICE OF DATA BREACH – PLEASE READ CAREFULLY

Craft Beer Company GP (including its subsidiaries Duvel Moortgat USA, Ltd., Boulevard Brewing Company, and Brewery Ommegang, Ltd.) (“CBC” or “we”) is writing to inform you of a cybersecurity incident in which your personal information may have been impacted by an unauthorized third party. This notice provides information concerning the incident, steps we have taken in response, and the services we are offering to help you protect your personal information. Additionally, at the end of this notice, we have included information on additional steps beyond the services we are providing that you may take to help protect your personal information.

What Happened?

On March 5, 2024, we discovered that an unauthorized third party gained access to our network. Upon becoming aware of the incident, we took immediate action to contain the incident and respond to it. Specifically, we promptly isolated all sites, shut down servers, and disconnected our system from the internet. We also launched an internal investigation, contacted law enforcement, and engaged external cybersecurity forensic experts to conduct an external investigation into this intrusion and help to further secure our systems against any additional potential vulnerabilities. Additionally, we promptly implemented the experts’ recommended actions to prevent the disclosure of data as we continued to investigate the situation and while we continue our work on remediating the incident. This work is continuing and while our network has been secured, we are still investigating and remediating the effects of the incident.

As our work continues, we have determined that unfortunately certain personal information of our current and former employees, and their dependents, was impacted during this incident, and thus we are commencing the reporting process for those individuals now.

What Information Was Involved?

Although we are still responding to and investigating the extent of this incident, we have already been able to determine that this incident may have impacted the personal information of CBC’s current and former employees, and potentially that of their spouses and dependents. Thus, we have commenced the reporting process for those individuals.

While we cannot be sure at this time what personal information of yours was compromised, such information could have included your name, home address, social security number, passport or other government identification such as your driver’s license, your bank account number, and other information such as regarding your health insurance and related life events, like medical leave.

What Are We Doing?

In addition to the immediate actions taken to contain the incident and respond to it as noted above, we are also taking additional appropriate steps in response to it, including re-training our staff to address how the incident occurred and working with them to understand how to avoid similar incidents in the future. We are also reviewing and updating our policies and procedures to further harden our cybersecurity program to hopefully prevent incidents of this nature from occurring again in the future.

Please note that we are still investigating this incident and took steps to notify our affected current and former employees as soon as we learned of the potential impact to their data. We will keep you updated as needed if any relevant information related to your information is learned.

Additionally, while we have no evidence at this time that your information has been misused for purposes of fraud or identity theft, we want to help prevent any such misuse, and thus we are offering you twenty-four (24) months of identity protection services and credit monitoring through Experian IdentityWorksSM. This product provides you with identity protection support focused on detection and resolution of identity theft. You can enroll in these services by following the instructions below. Please note that we strongly recommend that you enroll in Experian IdentityWorksSM, which is free of charge to you and will not hurt your credit score.

What You Can Do

In addition to enrolling in the identity protection services and credit monitoring through Experian IdentityWorksSM as detailed below, we also recommend that you remain vigilant for incidents of fraud or identity theft by reviewing your financial account statements and free credit reports for any unauthorized activity. We also recommend that you remain alert for unsolicited communications involving your personal information.

Please review the “Additional Steps You Can Take” section at the end of this letter, which describes additional precautionary steps you can take to protect your personal information, including contacting the Federal Trade Commission and/or placing a fraud alert or security freeze on your credit file.

Dear Sample A. Sample:

Re: NOTICE OF DATA BREACH – PLEASE READ CAREFULLY

Craft Beer Company GP (including its subsidiaries Duvel Moortgat USA, Ltd., Boulevard Brewing Company, and Brewery Ommegang, Ltd.) (“CBC” or “we”) is writing to inform you of a cybersecurity incident in which your child’s personal information may have been impacted by an unauthorized third party. This notice provides information concerning the incident, steps we have taken in response, and the services we are offering to help you protect your child’s personal information. Additionally, at the end of this notice, we have included information on additional steps beyond the services we are providing that you may take to help protect your child’s personal information.

What Happened?

On March 5, 2024, we discovered that an unauthorized third party gained access to our network. Upon becoming aware of the incident, we took immediate action to contain the incident and respond to it. Specifically, we promptly isolated all sites, shut down servers, and disconnected our system from the internet. We also launched an internal investigation, contacted law enforcement, and engaged external cybersecurity forensic experts to conduct an external investigation into this intrusion and help to further secure our systems against any additional potential vulnerabilities. Additionally, we promptly implemented the experts’ recommended actions to prevent the disclosure of data as we continued to investigate the situation and while we continue our work on remediating the incident. This work is continuing and while our network has been secured, we are still investigating and remediating the effects of the incident.

As our work continues, we have determined that unfortunately certain personal information of our current and former employees, and their dependents, was impacted during this incident, and thus we are commencing the reporting process for those individuals now.

What Information Was Involved?

Although we are still responding to and investigating the extent of this incident, we have already been able to determine that this incident may have impacted the personal information of CBC’s current and former employees, and potentially that of their spouses and dependents. Thus, we have commenced the reporting process for those individuals.

While we cannot be sure at this time what personal information of your child was compromised, such information could have included their name, home address, social security number, and other information such as regarding their health insurance and related life events, like their birth or extended illness, if such event impacted the employee (i.e., the employee took parental leave).

What Are We Doing?

In addition to the immediate actions taken to contain the incident and respond to it as noted above, we are also taking additional appropriate steps in response to it, including re-training our staff to address how the incident occurred and working with them to understand how to avoid similar incidents in the future. We are also reviewing and updating our policies and procedures to further harden our cybersecurity program to hopefully prevent incidents of this nature from occurring again in the future.

Please note that we are still investigating this incident and took steps to notify our affected current and former employees as soon as we learned of the potential impact to their data. We will keep you updated as needed if any relevant information related to your child’s information is learned.

Additionally, while we have no evidence at this time that your child's information has been misused for purposes of fraud or identity theft, we want to help prevent any such misuse, and thus we are offering you twenty-four (24) months of identity protection services and credit monitoring through Experian IdentityWorksSM. This product provides you with identity protection support focused on detection and resolution of identity theft. You can enroll in these services by following the instructions below. Please note that we strongly recommend that you enroll in Experian IdentityWorksSM, which is free of charge to you and will not hurt your child's credit score.

What You Can Do

We also recommend that you remain alert for unsolicited communications involving your personal information.

Free Credit Report. Regardless of whether you choose to take advantage of the complimentary identity monitoring, it is always advisable to be vigilant for incidents of fraud or identity theft by reviewing your account statements and free credit reports for any unauthorized activity. If you identify any unauthorized charges on your child’s financial account statements, you should immediately report any such charges to your child’s financial institution. You may obtain a copy of your credit report, free of charge, once every 12 months from each of the three nationwide credit reporting companies. To order your annual free credit report, please visit www.annualcreditreport.com or call toll free at 1-877-322-8228. You can also order your annual free credit report by mailing a completed Annual Credit Report Request Form (available from the U.S. Federal Trade Commission’s (“FTC”) website at www.consumer.ftc.gov) to: Annual Credit Report Request Service, P.O. Box 105281, Atlanta, GA 30348-5281.

For Colorado, Georgia, Maine, Maryland, Massachusetts, and New Jersey residents:

You may obtain one or more (depending on the state) additional copies of your credit report, free of charge. You must contact each of the credit reporting agencies directly to obtain such additional report(s).

Security Freeze. Security freezes, also known as credit freezes, restrict access to your credit file, making it harder for identity thieves to open new accounts in your name. You can freeze and unfreeze your credit file for free. You also can get a free freeze for your children who are under 16. And if you are someone’s guardian, conservator or have a valid power of attorney, you can get a free freeze for that person, too.

****** The Identity Theft Insurance is underwritten and administered by American Bankers Insurance Company of Florida, an Assurant company. Please refer to the actual policies for terms, conditions, and exclusions of coverage. Coverage may not be available in all jurisdictions.

How will these freezes work? Contact all three of the nationwide credit reporting agencies – Equifax, Experian, and TransUnion. If you request a freeze online or by phone, the agency must place the freeze within one business day. If you request a lift of the freeze, the agency must lift it within one hour. If you make your request by mail, the agency must place or lift the freeze within three business days after it gets your request. You also can lift the freeze temporarily without a fee.

The following information must be included when requesting a security freeze (note that if you are requesting a credit report for your spouse, this information must be provided for him/her as well): (1) full name, with middle initial and any suffixes; (2) Social Security number; (3) date of birth; (4) current address and any previous addresses for the past five years; and (5) any applicable incident report or complaint with a law enforcement agency or the Registry of Motor Vehicles. The request must also include a copy of a government-issued identification card and a copy of a recent utility bill or bank or insurance statement. It is essential that each copy be legible, display your name and current mailing address, and the date of issue.

For New Mexico residents: You may obtain a security freeze on your credit report to protect your privacy and ensure that credit is not granted in your name without your knowledge. You may submit a declaration of removal to remove information placed in your credit report as a result of being a victim of identity theft. You have a right to place a security freeze on your credit report or submit a declaration of removal pursuant to the Fair Credit Reporting and Identity Security Act. For more information, including information about additional rights, go to www.consumerfinance.gov/learnmore or write to: Consumer Financial Protection Bureau, 1700 G Street N.W., Washington, DC 20552.

Fraud Alerts. A fraud alert tells businesses that check your credit that they should check with you before opening a new account. An initial fraud alert stays on your credit report for one year. You may have an extended alert placed on your credit report if you have already been a victim of identity theft with the appropriate documentary proof. An extended fraud alert stays on your credit report for seven years. To place a fraud alert on your credit reports, contact one of the nationwide credit bureaus. A fraud alert is free. The credit bureau you contact must tell the other two, and all three will place an alert on their versions of your report.
