Nature of the Data Event

Blackbaud reported that, in May 2020, it experienced a ransomware incident that resulted in encryption of certain Blackbaud systems. Blackbaud reported the incident to law enforcement and worked with forensic investigators to determine the nature and scope of the incident. Following its investigation, Blackbaud notified its customers that an unknown actor may have accessed or acquired certain Blackbaud customer data. Blackbaud reported that the data was exfiltrated by the threat actor at some point before Blackbaud locked the threat actor out of the environment on May 20, 2020. Upon learning of the Blackbaud incident, Meals on Wheels of Albuquerque immediately commenced an investigation to determine what, if any, sensitive Meals on Wheels of Albuquerque data was potentially involved. This investigation included working diligently to gather further information from Blackbaud to understand the scope of the incident. On or about September 22, 2020, Meals on Wheels of Albuquerque received further information from Blackbaud that allowed it to determine the information potentially affected may have contained personal information. Meals on Wheels of Albuquerque then conducted an internal review to determine who was impacted, and address information for those who were impacted.

Steps You Can Take to Help Protect Your Information

Monitor Your Accounts

We encourage you to remain vigilant against incidents of identity theft and fraud and to review your account statements and credit reports for suspicious activity. Under U.S. law you are entitled to one free credit report annually from each of the three major credit reporting bureaus. To order your free credit report, visit www.annualcreditreport.com or call, toll-free, 1-877-322-8228. You may also contact the three major credit bureaus directly to request a free copy of your credit report.

You have the right to place a “security freeze” on your credit report, which will prohibit a consumer reporting agency from releasing information in your credit report without your express authorization. The security freeze is designed to prevent credit, loans, and services from being approved in your name without your consent. However, you should be aware that using a security freeze to take control over who gets access to the personal and financial information in your credit report may delay, interfere with, or prohibit the timely approval of any subsequent request or application you make regarding a new loan, credit, mortgage, or any other account involving the extension of credit. Pursuant to federal law, you cannot be charged to place or lift a security freeze on your credit report. Should you wish to place a security freeze, please contact the major consumer reporting agencies listed below:

In order to request a security freeze, you will need to provide the following information:

1. Your full name (including middle initial as well as Jr., Sr., II, III, etc.);
2. Social Security number;
3. Date of birth;
4. If you have moved in the past five (5) years, the addresses where you lived over the prior five years;
5. Proof of current address, such as a current utility bill or telephone bill;
6. A legible photocopy of a government-issued identification card (state driver’s license or ID card, military identification, etc.);
7. If you are a victim of identity theft, a copy of either the police report, investigative report, or complaint to a law enforcement agency concerning identity theft.

As an alternative to a security freeze, you have the right to place an initial or extended “fraud alert” on your file at no cost. An initial fraud alert is a 1-year alert that is placed on a consumer’s credit file. Upon seeing a fraud alert display on a consumer’s credit file, a business is required to take steps to verify the consumer’s identity before extending new credit. If you are a victim of identity theft, you are entitled to an extended fraud alert, which is a fraud alert lasting seven years.
