By providing this notice, 20/20 does not waive any rights or defenses regarding the applicability of Maine law, the applicability of the Maine data event notification statute, or personal jurisdiction.

Nature of the Data Event

On January 11, 2021, 20/20 was alerted to suspicious activity in its Amazon Web Services (“AWS”) environment. In response, access credentials to the AWS environment were reviewed and deactivated/reset, and other responsive security measures were immediately put into place. In response to the deletion event, 20/20 promptly notified the FBI. After reviewing available evidence, the investigation determined that on January 11, 2021, data was potentially removed from the S3 buckets hosted in AWS and all the data in the S3 buckets was then deleted. The forensic investigation continued, and in late February, 20/20 determined the data could have potentially included information about some or all health plan members for whom it had records. At this time, 20/20 has notified the relevant health plans believed to have been impacted as a result of this event. Subsequently, an exhaustive review to determine what specific data may be at risk and to whom that information relates was conducted. Upon completion of the review and verification of the data, 20/20 notified individuals and relevant regulators as soon as possible.

The information that could have been subject to unauthorized access includes name, address, Social Security number, member identification number, date of birth, and health insurance information.

Notice to Maine Residents

On or about May 28, 2021, 20/20 began providing written notice of this incident to all affected individuals, which includes 221 Maine residents. Written notice is being provided in substantially the same form as the letter attached here as *Exhibit A*.

Other Steps Taken and To Be Taken

Upon discovering the event, 20/20 moved quickly to investigate and respond to the incident, assess the security of 20/20 systems, and notify potentially affected individuals. 20/20 is also working to implement additional safeguards and training to its employees. 20/20 is providing access to credit monitoring services for twelve (12) months, through TransUnion, to individuals whose personal information was potentially affected by this incident, at no cost to these individuals.

Additionally, 20/20 is providing impacted individuals with guidance on how to better protect against identity theft and fraud, including advising individuals to report any suspected incidents of identity theft or fraud to their credit card company and/or bank. 20/20 is providing individuals with information on how to place a fraud alert and security freeze on one's credit file, the contact details for the national consumer reporting agencies, information on how to obtain a free credit report, a reminder to remain vigilant for incidents of fraud and identity theft by reviewing account statements and monitoring free credit reports, and encouragement to contact the Federal Trade Commission, their state Attorney General, and law enforcement to report attempted or actual identity theft and fraud. 20/20 also notified the U.S. Department of Health and Human Services, as well as other relevant state regulators.

Dear <<Name 1>>:

20/20 Hearing Care Network, Inc. helps manage your hearing benefits for [REDACTED]. **We are writing to tell you about a security incident that may have impacted you as a current or former [REDACTED] member.** A security incident is an attempted or actual access, use, release, change, or destruction of data by someone that was not given approval to access said data. This letter will tell you what happened and what we are doing to help.

What happened? We realized an unknown person(s) accessed our system and deleted some files on 1/11/21. We do not think there is any actual misuse of your personal or vision/hearing insurance information, but we don't know for sure. A cybersecurity firm looked into the incident for us and could not tell which files were seen or deleted by the unknown person(s). Thus, we looked at all the information on the system that could have been seen or deleted to see if your information was involved.

What information was involved? Your Social Security number, member identification number, date of birth and health insurance information may have been seen or accessed before being deleted. This information is called your personal information or protected health information (PHI). It tells others about you and is part of your identity.

What we are doing. We care a lot about the safety of your information. We have:

- Looked into what caused this incident to occur.
- Taken steps to reduce the risk this will happen again, like:
 - Resetting passwords.
 - Telling the FBI about the problem. They are investigating it.
 - Sending letters to everyone whose information may be involved, including you.
- Reviewed and started making our policies and procedures stronger.

We are committed to protecting the privacy and security of your information.

What you can do. Please read the “Steps You Can Take to Help Protect Your Information” pages with this letter. They give:

- Tips to help you keep your identity safe, like looking over health account statements and credit reports for things you didn't buy.
- The list of agencies to whom you can report issues of bad payments.
- Steps on how to sign up for free credit monitoring services.

Do you need help? Call 1-833-580-2416 toll free Monday through Friday, 8:00 a.m. to 5:00 p.m. Central Time if you have questions.

Sincerely,

20/20 Hearing Care Network, Inc.

Steps You Can Take to Help Protect Your Information

Enroll in Free Credit Monitoring

We are providing you with access to **Single Bureau Credit Monitoring*** services at no charge. These services provide you with alerts for twelve (12) months from the date of enrollment when changes occur to your TransUnion credit file. This notification is sent to you the same day that the change or update takes place with the bureau. In addition, we are providing you with proactive fraud assistance to help with any questions that you might have or in the event you become a victim of identity theft, as well as a \$1,000,000 insurance reimbursement policy.

To enroll in Credit Monitoring services at no charge, please log on to idforces.com and follow the instructions provided. When prompted, please provide the following unique code to receive services: <<Activation Code>>. In order for you to receive the monitoring services described above, you must enroll within 90 days from the date of this letter.

Representatives are available for 90 days from the date of this letter, to assist you with questions regarding this incident, between the hours of 8:00 a.m. to 5:00 p.m. Central time, Monday through Friday. Please call the help line at 1-833-580-2416 and supply the fraud specialist with your unique code listed above. To extend these services, enrollment in the monitoring services described above is required.

Check Your Accounts

We urge you to stay alert for incidents of identity theft and fraud, review your account statements, and check your credit reports for shady activity. Under U.S. law, you are eligible for one free credit report each year from each of the three major credit reporting bureaus. To order your free credit report, visit annualcreditreport.com or call toll-free 877-322-8228. You may also reach out to the three major credit bureaus directly to request a free copy of your credit report.

You have the right to place a security freeze on your credit report. The security freeze will stop a consumer reporting agency from giving out personal or financial information in your credit report without your consent. The security freeze is designed to prevent credit, loans, and services from being approved in your name without your consent. Note: using a security freeze to take control over who gets access to your credit report may delay or prevent any new loan, credit, mortgage, or any other credit extension request or application you make from being approved timely. Under federal law, you cannot be charged to place or lift a security freeze on your credit report. If you wish to place a security freeze, please reach out to these major consumer reporting agencies:

Experian
P.O. Box 9554
Allen, TX 75013
888-397-3742
experian.com/freeze

TransUnion
P.O. Box 160

Equifax
P.O. Box 105788
Atlanta, GA 30348-5788
800-685-1111
equifax.com/personal/credit-report-services

To request a security freeze, you will need to provide these items:

1. Your full name with middle initial and suffix (Jr., Sr., II, III, etc.)
2. Social Security number
3. Date of birth
4. The addresses where you have lived over the last five years, if you have moved
5. Proof of current address, such as a current utility bill or telephone bill
6. A clear photocopy of a government-issued identification card (state driver's license or ID card, military ID, etc.)
7. If you are a victim of identity theft, show a copy of either the police or investigative report or complaint to a law enforcement agency about identity theft

Instead of a security freeze, you have the right to place an initial or extended fraud alert on your file at no cost. An initial fraud alert is a one-year alert that is placed on a consumer's credit file. Businesses are required to take steps to verify a consumer's identity before extending new credit once they see a fraud alert on a credit file. If you are a victim of identity theft, you are eligible for an extended fraud alert. This is a fraud alert lasting seven years. If you wish to place a fraud alert, please reach out to any one of these agencies:
