The investigation into this matter is ongoing, and this notice may be supplemented with any new significant facts learned subsequent to its submission. By providing this notice, Valley County does not waive any rights or defenses regarding the applicability of Maine law, the applicability of the Maine data event notification statute, or personal jurisdiction.

Nature of the Data Event

On or around April 6, 2021, Valley County became aware of a potential configuration issue relating to an online portal used for public record searches. The portal utilized a software licensed from a third-party vendor to house documents online, allowing county residents to search for copies of their recorded documents, including marriage licenses, death certificates, and other court records. Valley County discovered some of these documents were not properly redacted by the software and that personal information in these documents could have potentially been accessible to the public via the portal between January of 2020 and April of 2021. Though there is no evidence of attempted or actual misuse of this information, as a precautionary measure, the documents available on the online portal were taken down and then reviewed to determine what, if any, personal information may have been contained within the records. On August 11, 2021, this extensive review identified certain personal information was present within the records. Valley County then undertook efforts to locate address information for those individuals whose information was present in the records at the time of this event and began providing notice once it was confident that it had the correct contact information.

The information that could have been accessible includes name, address, and Social Security number.

Notice to Maine Residents

On or about December 10, 2021, Valley County began providing written notice of this incident to affected individuals, which includes three (3) Maine residents. Written notice is being provided in substantially the same form as the letter attached here as *Exhibit A*.

Other Steps Taken and To Be Taken

Upon discovering the event, Valley County moved quickly to investigate and respond to the incident, assess the security of Valley County systems, and notify potentially affected individuals. Valley County is also working to implement additional safeguards and training to its employees. Valley County is providing access to credit monitoring services for one (1) year, through Experian, to individuals whose personal information was potentially affected by this incident, at no cost to these individuals.

Additionally, Valley County is providing impacted individuals with guidance on how to better protect against identity theft and fraud, including advising individuals to report any suspected incidents of identity theft or fraud to their credit card company and/or bank. Valley County is providing individuals with information on how to place a fraud alert and security freeze on one's credit file, the contact details for the national consumer reporting agencies, information on how to obtain a free credit report, a reminder to remain vigilant for incidents of fraud and identity theft by

reviewing account statements and monitoring free credit reports, and encouragement to contact the Federal Trade Commission, their state Attorney General, and law enforcement to report attempted or actual identity theft and fraud. Valley County is also providing written notice of this incident to other state regulators, as necessary.

Consumers have the right to place an initial or extended "fraud alert" on a credit file at no cost. An initial fraud alert is a 1-year alert that is placed on a consumer's credit file. Upon seeing a fraud alert display on a consumer's credit file, a business is required to take steps to verify the consumer's identity before extending new credit. If you are a victim of identity theft, you are entitled to an extended fraud alert, which is a fraud alert lasting seven years. Should you wish to place a fraud alert, please contact any one of the three major credit reporting bureaus listed below.

As an alternative to a fraud alert, consumers have the right to place a "credit freeze" on a credit report, which will prohibit a credit bureau from releasing information in the credit report without the consumer's express authorization. The credit freeze is designed to prevent credit, loans, and services from being approved in your name without your consent. However, you should be aware that using a credit freeze to take control over who gets access to the personal and financial information
