## Notice of Security Incident

Dear <<first\_name>> <<middle\_name>> <<last\_name>> <<suffix>>:

Shields Health Care Group, Inc. (“Shields”) is writing to inform you of a data security event that may have impacted some of your information. Shields provides management and imaging services on behalf of health care facilities, including: <<b2b\_text\_2(Facility Name)>><sup>1</sup>. We are providing information about the event, our response, and steps to better protect against the possibility of identity theft and fraud, should you find it is necessary to do so.

**What Happened?** On March 28, 2022, Shields was alerted to suspicious activity potentially involving data compromise. We initiated our incident response protocols and immediately launched an investigation with third-party forensics specialists to determine the nature of the activity and the scope of potentially impacted data.

The investigation determined an unknown actor gained access to certain Shields systems from March 7, 2022, to March 21, 2022. Furthermore, the investigation revealed certain data was acquired by the unknown actor within that time frame. We worked with specialists to perform a comprehensive review of the potentially affected data to determine what information may have been impacted, and provided notices to some individuals and regulators last year while our review continued. We recently completed this review.

**What Information Was Involved?** We determined the impacted information may include: <<b2b\_text\_3(data elements)>><<b2b\_text\_4(data elements cont.)>>.

**What We Are Doing.** We take this incident, and the security of information held on our systems, very seriously. Upon discovery, we immediately activated our incident response protocols, notified law enforcement, and launched an investigation to confirm the nature of the activity and the scope of potentially impacted data. We also rebuilt certain systems on our network. While we have safeguards in place to protect our data, we are reviewing and enhancing these protections as part of our ongoing commitment to data security. We are also offering you free identity monitoring services for twenty-four (24) months through Kroll, a global leader in risk mitigation and response.

**What You Can Do.** We encourage you to remain vigilant against incidents of identity theft and fraud by reviewing your account statements and monitoring your credit reports for suspicious activity or errors. You may also review the information contained in the attached “Steps You Can Take to Help Protect Your Personal Information.” There you will find more information on the identity monitoring services we are making available to you. While Shields will cover the cost of these services, you will need to complete the activation process. Activation instructions are attached to this letter.

### **Monitor Your Accounts**

Under U.S. law, a consumer is entitled to one free credit report annually from each of the three major credit reporting bureaus, Equifax, Experian, and TransUnion. To order a free credit report, visit [www.annualcreditreport.com](http://www.annualcreditreport.com) or call, toll-free, 1-877-322-8228. Consumers may also directly contact the three major credit reporting bureaus listed below to request a free copy of their credit report.

Consumers have the right to place an initial or extended “fraud alert” on a credit file at no cost. An initial fraud alert is a 1-year alert that is placed on a consumer’s credit file. Upon seeing a fraud alert display on a consumer’s credit file, a business is required to take steps to verify the consumer’s identity before extending new credit. If consumers are the victim of identity theft, they are entitled to an extended fraud alert, which is a fraud alert lasting seven years. Should consumers wish to place a fraud alert, please contact any of the three major credit reporting bureaus listed below.

As an alternative to a fraud alert, consumers have the right to place a “credit freeze” on a credit report, which will prohibit a credit bureau from releasing information in the credit report without the consumer’s express authorization. The credit freeze is designed to prevent credit, loans, and services from being approved in a consumer’s name without consent. However, consumers should be aware that using a credit freeze to take control over who gets access to the personal and financial information in their credit report may delay, interfere with, or prohibit the timely approval of any subsequent request or application they make regarding a new loan, credit, mortgage, or any other account involving the extension of credit. Pursuant to federal law, consumers cannot be charged to place or lift a credit freeze on their credit report. To request a credit freeze, individuals may need to provide some or all of the following information:

1. Full name (including middle initial as well as Jr., Sr., II, III, etc.);
2. Social Security number;
3. Date of birth;
4. Addresses for the prior two to five years;
5. Proof of current address, such as a current utility bill or telephone bill;

<sup>2</sup>Kroll’s activation website is only compatible with the current version or one version earlier of Chrome, Firefox, Safari and Edge. To receive credit services, you must be over the age of 18 and have established credit in the U.S., have a Social Security number in your name, and have a U.S. residential address associated with your credit file.

6. A legible photocopy of a government-issued identification card (state driver’s license or ID card, etc.); and
7. A copy of either the police report, investigative report, or complaint to a law enforcement agency concerning identity theft if they are a victim of identity theft.

Should consumers wish to place a credit freeze or fraud alert, please contact the three major credit reporting bureaus listed below:
