VIA U.S. MAIL

Dear [REDACTED]

Traffic Safety Warehouse (“TSW” or “we”) writes to advise you that we recently became aware of a data security incident suffered by our third-party service provider, Freestyle Solutions (the “Incident”). Freestyle Solutions provides the shopping cart and payment processing functionality for our website. We are writing to let you know how this Incident may have affected your personal information (“Information”) and, as a precaution, to provide steps you can take to help protect your Information. We are unaware of the misuse of your Information but are contacting you to share what we know about the Incident.

What Happened?

In March of 2022, we became aware of the Incident suffered by our third-party service provider, Freestyle Solutions, that involved malware found on the server of another company’s website also managed by Freestyle Solutions. Following an investigation performed by Freestyle, we were informed the Incident involved the unauthorized access and acquisition of payment card information for individuals who used a card on the TSW site between September 18, 2020, and February 3, 2022, which included your Information. We retained national data security experts to assist in providing this notification and reporting to the appropriate regulators as required.

What Information Was Involved?

TSW learned that a limited number of individuals’ financial card information, including payment card number, expiration date, security code, and transaction details (such as product type, price, and quantity) in combination with their name and address may have been impacted. Again, we have no evidence that any of your Information was misused.

What We Are Doing.

We are working with a leading data security firm to aid in our investigation and response and will report this Incident to relevant state and federal authorities. As a result of the Incident, Freestyle Solutions has also implemented additional security protocols designed to secure the environment to prevent further unauthorized access. As indicated above, after becoming aware of the issue, the service provider, Freestyle Solutions took immediate steps to identify and remove the malware and block further unauthorized activity. Freestyle promptly launched an extensive investigation with the assistance of data security experts to determine the timeframes of exposure for each of the websites’ affected customers and to identify impacted cardholders. Freestyle also notified federal law enforcement authorities and coordinated with the payment card companies in an effort to protect affected cardholders.

What You Can Do.

It is always recommended that you regularly review account statements and report any suspicious activity to financial institutions. Please also review the enclosed "Additional Resources" section included with this letter, which describes additional steps you can take to help protect your Information.

For More Information.

If you have any questions, please reach out to TSW Customer Service at (847) 966-1018 (Monday-Friday, 8 AM to 5 PM CST).

The following information must be included when requesting a security freeze (note that if you are requesting a credit report for your spouse, this information must be provided for him/her as well): (1) full name, with middle initial and any suffixes; (2) Social Security number; (3) date of birth; (4) current address and any previous addresses for the past five years; and (5) any applicable incident report or complaint with a law enforcement agency or the Registry of Motor Vehicles. The request must also include a copy of a government-issued identification card and a copy of a recent utility bill or bank or insurance statement. It is essential that each copy be legible, and display your name, current mailing address, and the date of issue.
