

Year 4 Performance Report

*Prepared for
Maine Virtual Academy*

June 2024

Mission

Maine Virtual Academy's (MeVA) mission is to develop each student's full potential with learner-centered instruction, research-based curriculum and educational tools and resources to provide a high-quality learning experience for grade 7-12 students who are in need of alternative educational options. MeVA will develop an Individualized Learning Plan (ILP) with specific learning goals to meet each student's needs.

Vision

MeVA will be a leading 21st century public charter school in Maine and will improve student learning outcomes through individualized instruction, as evidenced by student academic proficiency, student academic growth, post-secondary readiness, and the demonstration of 21st century skills such as critical thinking, problem solving, and self-direction. MeVA will empower students to acquire the academic and life skills needed to succeed in postsecondary education and career opportunities. Our graduates will be prepared for college or other postsecondary career training opportunities.

CHARTER RENEWAL PROCESS

The Maine Charter School Commission is the authorizer of nine (9) charter districts. Each charter district holds a contract with the Commission containing a Performance Framework of indicators and targets the district shall meet. The charter districts are evaluated and reported on annually as required by law. District data are gathered through the Maine Department of Education, charter districts, and site visits, as applicable. This report is a compilation of the charter district's last 4 years of performance.

According to §2411 Charter Term and Renewal a charter may be renewed for successive terms of 5 years, although an authorizer may grant a renewal for a term not to exceed 15 years based on the performance, demonstrated capacities and circumstances of each public charter school. An authorizer may grant renewal with specific conditions for necessary improvements to a public charter school.

No later than June 30th of a public charter school's 4th year of operation under each 5-year term of a charter contract, the authorizer shall issue a public charter school performance report. If the charter of the public charter school is expiring, the authorizer shall offer charter renewal application guidance to the school. The performance report required in this subsection must summarize the public charter school's performance record to date, based on the data required by this chapter and the charter contract, and must provide notice of any weaknesses or concerns perceived by the authorizer concerning the school that may jeopardize its position in seeking renewal if not timely rectified. The school must be given the opportunity to respond to the performance report and submit any corrections or clarifications for the report. The renewal application guidance required must include or refer explicitly to the criteria and standards that will guide the authorizer's renewal decisions, which must be based on the performance framework under §2409. The renewal application guidance must, at a minimum, require and provide an opportunity for the public charter school to:

- 1. Present additional evidence, beyond the data contained in the performance report, supporting its case for charter renewal;*
- 2. Describe improvements undertaken or planned for the school; and*
- 3. Detail the school's plans for the next charter term.*

No later than September 30th of a public charter school's 5th year of operation under a term of a charter contract, or September 30th of a public charter school's final authorized year of operation under a term of a charter contract, the governing board of a public charter school seeking renewal shall submit a renewal application to the Maine Charter School Commission pursuant to any renewal application guidance offered by the Maine Charter School Commission.

The Maine Charter School Commission shall rule by resolution on a renewal application under this section no later than 45 days after the filing of the renewal application. In making charter renewal decisions, every authorizer shall:

- A. Ground its decisions in evidence of the public charter school's performance over the term of the charter in accordance with the performance framework under §2409;*
- B. Ensure that data used in making renewal decisions are available to the public charter school and the public; and*
- C. Provide a public report summarizing the evidence basis for each decision.*

A charter may be revoked at any time or not renewed if the authorizer determines that the public charter school failed to comply with the provisions of this chapter or committed a material violation of any of the terms, conditions, standards or procedures required under this chapter or the charter contract; failed to meet or make sufficient progress toward the performance expectations set forth in the charter contract; failed to meet generally accepted standards of fiscal management; or violated any provision of law from which the school was not exempted.

If an authorizer revokes or does not renew a charter, the authorizer shall clearly state, in a resolution of its governing entity, the reasons for the revocation or nonrenewal. The authorizer shall include in the charter contract a description of the standards and processes under which the authorizer may pursue revocation of the charter contract. The processes must comply with §2410, subsection 2 and provide an opportunity for the public charter school to be heard prior to a decision on revocation.

The following public charter school performance report shall be issued no later than June 30, 2024, Maine Virtual Academy's 9th year of operation under its second 5-year charter contract. The performance report summarizes Maine Virtual Academy's performance record during the second charter term and provides notice of any weaknesses or concerns perceived by the Maine Charter School Commission (MCSC) concerning the school that may jeopardize its position in seeking renewal. Maine Virtual Academy will be given the opportunity to respond to this report and submit any corrections or clarifications.

CONSIDERATIONS FOR RENEWAL

The monitoring process and review of evidence has led to the conclusion that Maine Virtual Academy (MEVA) provides a strong education to the students that it serves, is a dedicated partner, and a healthy and effective organization. A summary of the evidence is provided below.

MEVA serves approximately 442 students from 187 cities and towns across the state of Maine.

Area of Strength:

Maine Virtual Academy has consistently met or exceeded expectations in the following areas over the 4 year charter contract:

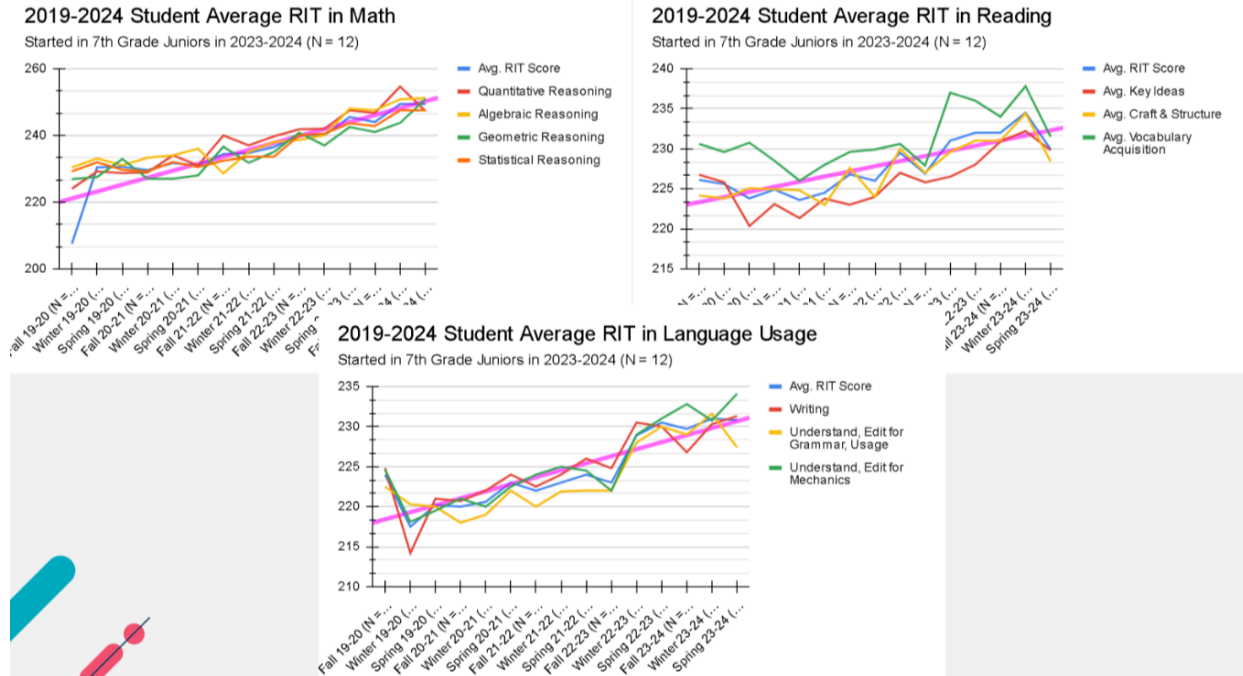

- Proficiency on the state ELA assessment
- Post-secondary readiness measured by Accuplacer results for all students and subgroups of students
- Post-secondary activity completion
- FAFSA opportunities for families
- High satisfaction rates for families, staff, students and teachers
- All board effectiveness indicators
- All public accountability and reporting timeliness indicators
- All financial metrics
- Student enrollment and persistence; and
- Customized Target.

MEVA has shown remarkable growth during the 4 years of their current charter contract, culminating in meeting or exceeding in almost all of the indicators on the Performance Framework, including:

- Proficiency on the state ELA assessment for all students and subgroups
- Student academic growth for all students in reading and language; and reading and math subgroups
- 100% graduation rate for the last two years
- All post-secondary indicators, including strong academic performance on the Accuplacer
- High rate of student attendance and low rate of chronic absenteeism
- Excellent satisfaction ratings from students, families, staff and teachers
- Healthy finances
- Effective Board Governance; and
- Student enrollment and persistence.

Worth noting is that MEVA consistently displays high student participation rates in the state assessment, such as the 97.17% participation rate this year. As a virtual school, they deploy staff and equipment across the state to achieve these results. The high participation rate is representative of the investment that teachers, families and students have in the school, as shown in the strong Panorama survey results.

MEVA is a highly data driven organization, which analyzes performance trends over time and has shown that the longer students stay at MEVA, the more they learn, as measured by the NWEA MAP Growth assessment. *(See Graphs Below)*

Area for Improvement:

The sole area where the school is not meeting expectations is math proficiency on the Maine State Assessment. MEVA reports that they are devoting significant time and energy to improve math scores. The school has aligned their math curriculum to include the components that are newly assessed on the new state assessment, primarily incorporating 8th grade algebra standards. Because MEVA begins in 7th grade, the school works to thoroughly balance teaching missing skills and standards with exposing students to grade-level content for mastery before graduation.

It is worth noting that the Maine State Assessment results include grades 7, 8, and 10 and once students at MEVA are seniors, 100% are graduating with 87% in reading and 88% in math displaying college readiness on the Accuplacer assessment.

The Maine Charter School Commission (MCSC) reviewed MEVA's performance and evidence of increased student demand for seats at the school this year when MEVA submitted an amendment to increase student enrollment to 450 students. After reviewing the school's data, the MCSC voted to approve the request to increase enrollment. The school has met their enrollment goal and is planning to enroll 450 students in Fall 2024.

As MEVA noted in their self-evaluation: "MEVA's performance in all major components of the school's operation, as measured against performance indicators and other goals and objectives expressed in our approved contract, is characterized by maturity and thoroughness. Over the past nine years, MEVA has transformed from a small startup

organization to an established institution that highly prioritizes the experience of our stakeholders. Our prevailing trend is enthusiastically serving our students and their families, along with meeting our responsibilities and outcome expectations.”
