The following information pertains to submitting new listings for consideration:

- In order to list a product in Maine, you will need to use a broker residing in Maine. A list of brokers that are currently hold a Maine Sales Representative license and already have access to our various systems is available by contacting BABLO at 207-287-6753.
 - If you do not have a broker and wish to use someone not on the provided list, your new local broker **must** obtain a Maine Sales Representative License. You may contact BABLO's Division of Licensing and Enforcement at 207-624-7220 for more information on obtaining a Maine Sales Representative License. Please allow time for this process.
- Before a product may be submitted to Maine for consideration, the product must be listed with the National Alcohol Beverage Control Association (NABCA). For more information, please contact NABCA directly at 703-578-4200. Maine uses the NABCA code as the State Code.
- BABLO uses NABCA's Price Quotation Reporting System (PQRS) for listing new products, as well as for making changes to existing items. If using a Maine broker, they will already have access and be trained in PQRS. Only those who will be using the system to enter new product will be granted access to PQRS. You may request an account at <https://pqrs.nabca.org/> by clicking on "Request Access" in the upper right side of the screen. If you have been granted access to PQRS and need training or have other question regarding PQRS, please contact pqrshelp@nabca.org. In order to list product in Maine, you must submit a quote sheet for each SKU that will be listed or make changes to existing SKU(s) through the PQRS system.
- You must also obtain Federal approval for your product with the Alcohol and Tobacco Tax and Trade Bureau. You may register and download the approval forms via www.ttbonline.gov. You may also contact them via phone at 866-927-2533 (toll free). You must submit a copy of the approval form, COLA, to BABLO by entering the product TTB ID in PQRS in order to list your new product.
