| 05/15/24 | 8:40 PM | Odor | Burnt rubber and methane | Andre Vigneault | 2915 Bennoch Road, Alton, ME | Yes | SW/1.6 mph | Yes | Environmental Analyst (call) | Landfill | 0 | Yes | On 5/15/2024 at 9:00 PM, an odor complaint was called in from 2915 Bennoch Road. The caller stated that he smelled "burnt rubber (husband) and/or methane (wife)" at their home. The caller noticed the odor at 8:40 PM and stated that the odor was "very strong even with the windows closed." The Environmental Analyst (EA) returned the call on $5 / 16 / 2024$ at $9: 15$ AM. Discussions with JRL staff indicated that the landfill flare was out from 8:41 PM to 9:01 PM, which could have been the source of the odor. The cause of the flare outage was the system water pump breaker tripped, causing the entire gas plant to shut down. The complainant said that he had gone outside approximately 20 minutes after first noticing the odor and it was gone. Landfill evening personnel stated that they did not detect any odors following the flare restart, therefore correcting the problem. |
