## Economic and Demographic Trends in Maine

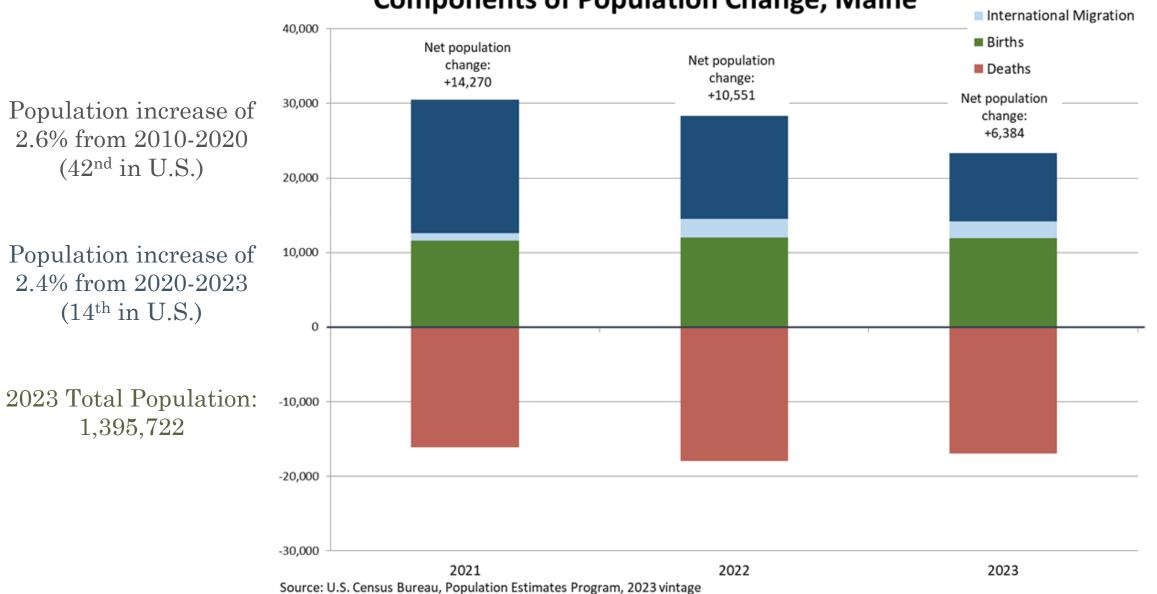

### AGA Maine Chapter

May 7, 2024

Amanda Rector Maine State Economist

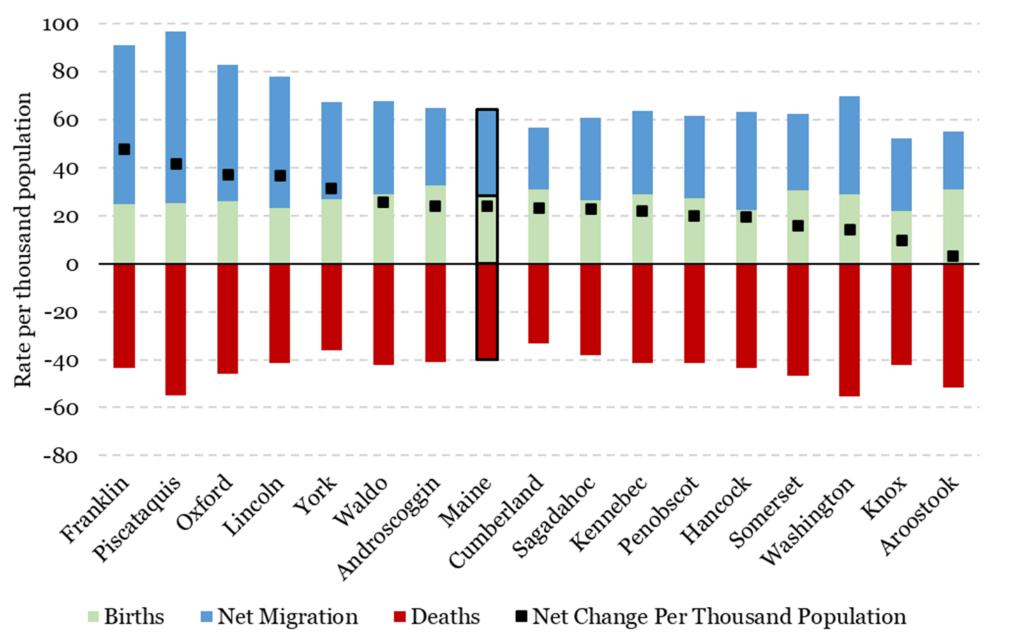

# Population Change

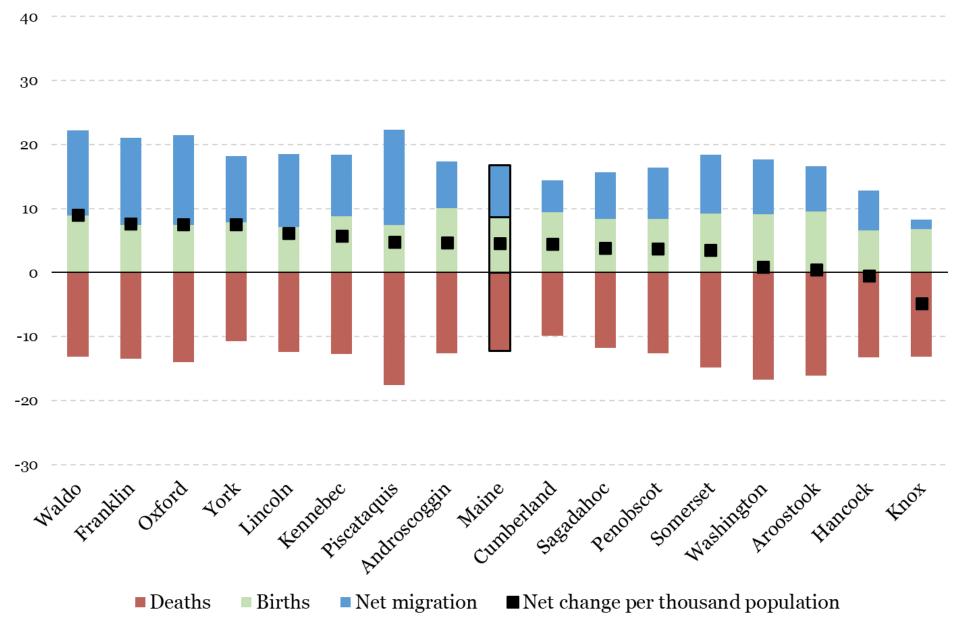

#### **Components of Population Change, Maine**

Domestic Migration

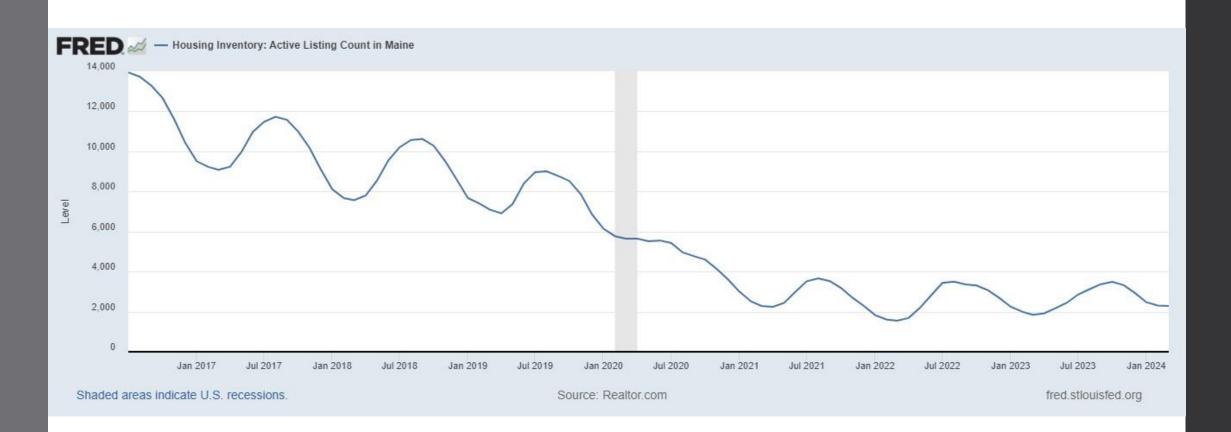

#### Components of Population Change in Maine, 4/2020-7/2023 Rate per thousand population

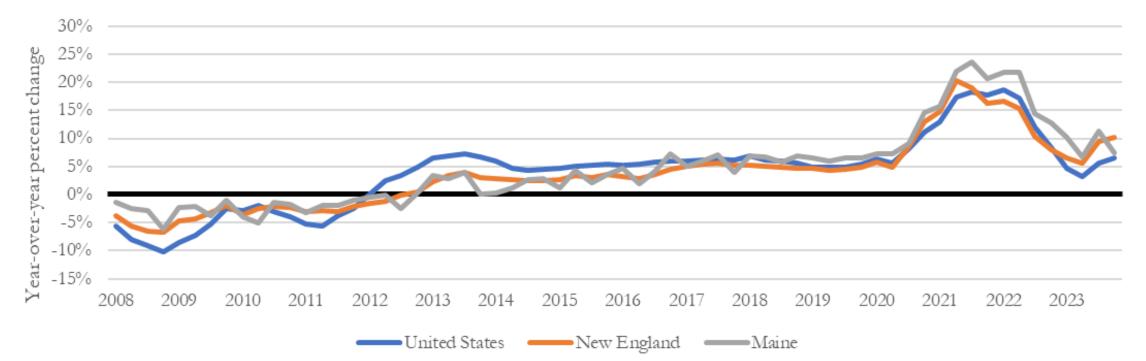

#### Components of Population Change in Maine, 2023 Rate per thousand population

# Housing

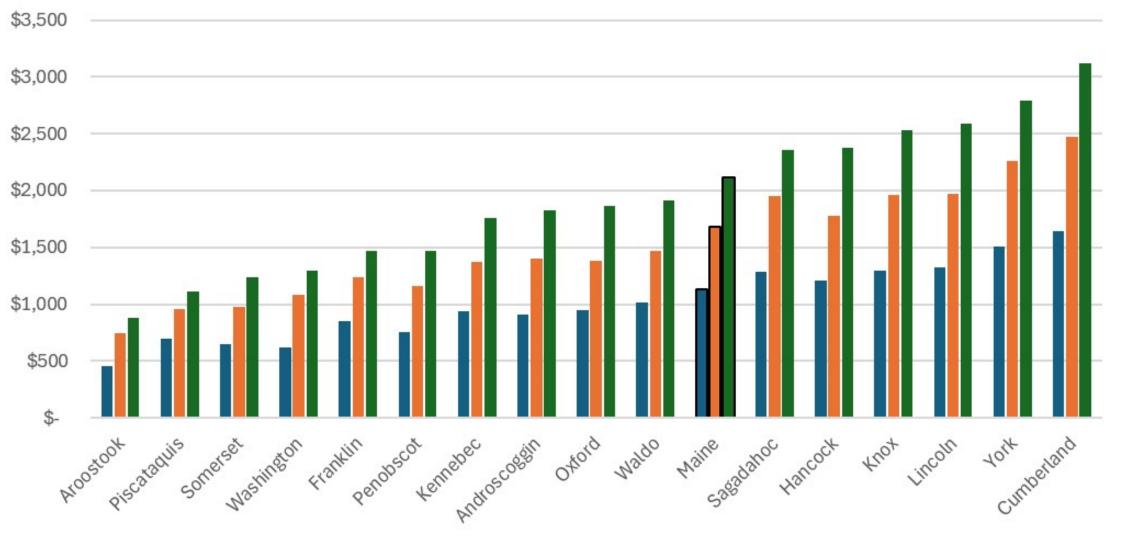

Migration into the state drove up demand for housing and further reduced the available supply; high mortgage rates have locked people into existing homes

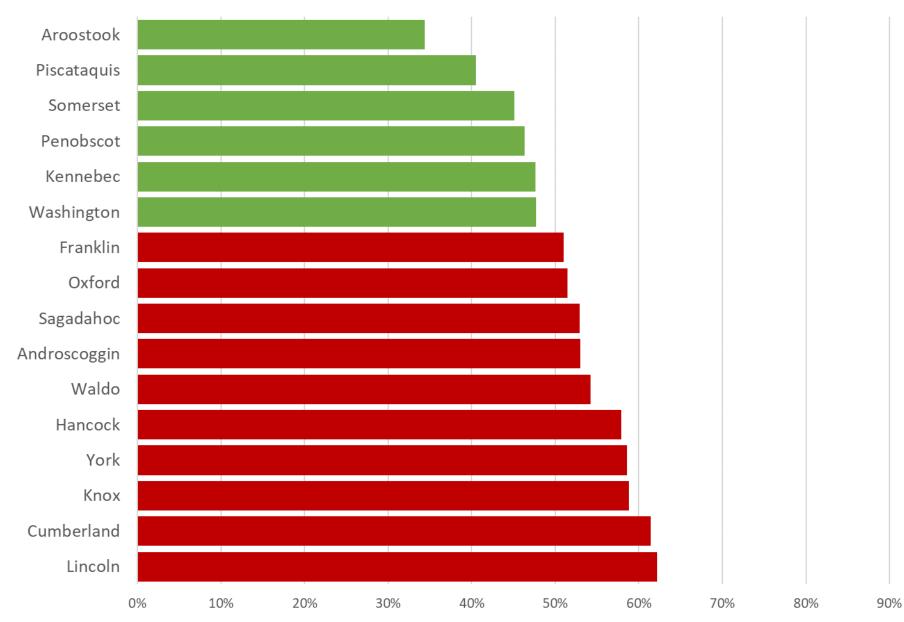

#### Percent Changes, Year-over-year in FHFA House Price Index (Seasonally Adjusted)

 $\mathbf{Q}$ 

## Monthly Mortgage Payment at the Median Sales Price 2021-2023

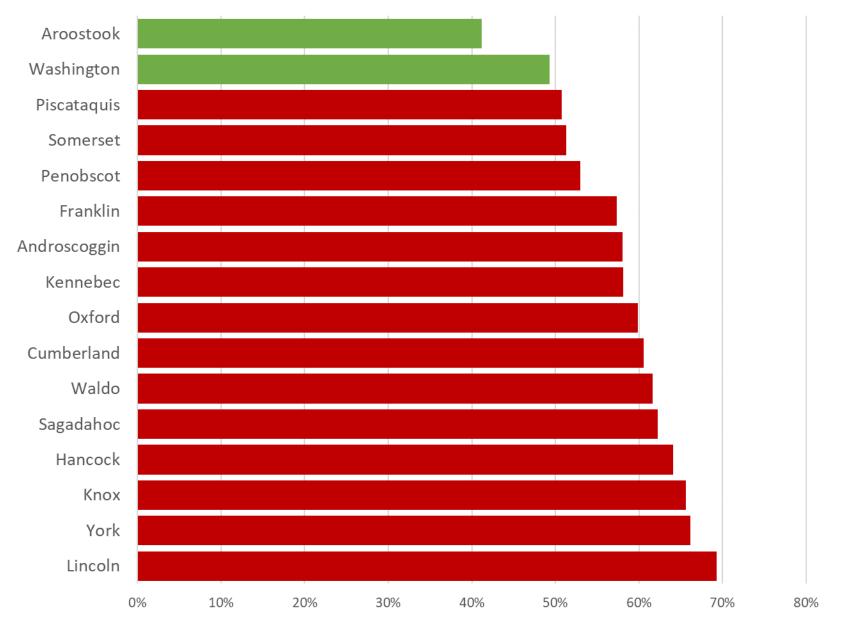

#### Percent of Households Unable to Afford Median Home, 2020

High demand + low supply = price increases, contributing to sharp increase in unaffordability

# Source: MaineHousing homeownership facts and affordability index

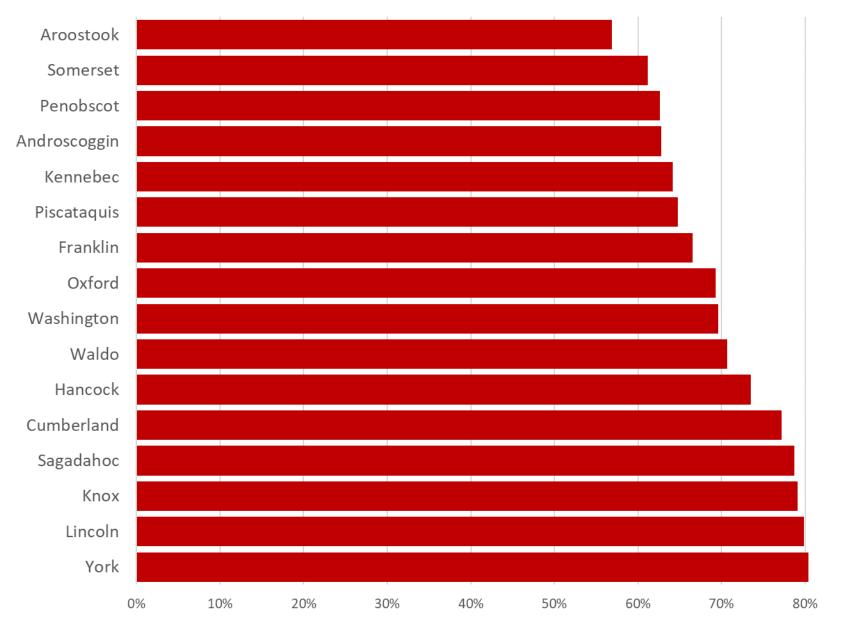

#### Percent of Households Unable to Afford Median Home, 2021

High demand
+ low supply
= price increases,
contributing to
sharp increase in
unaffordability

90%

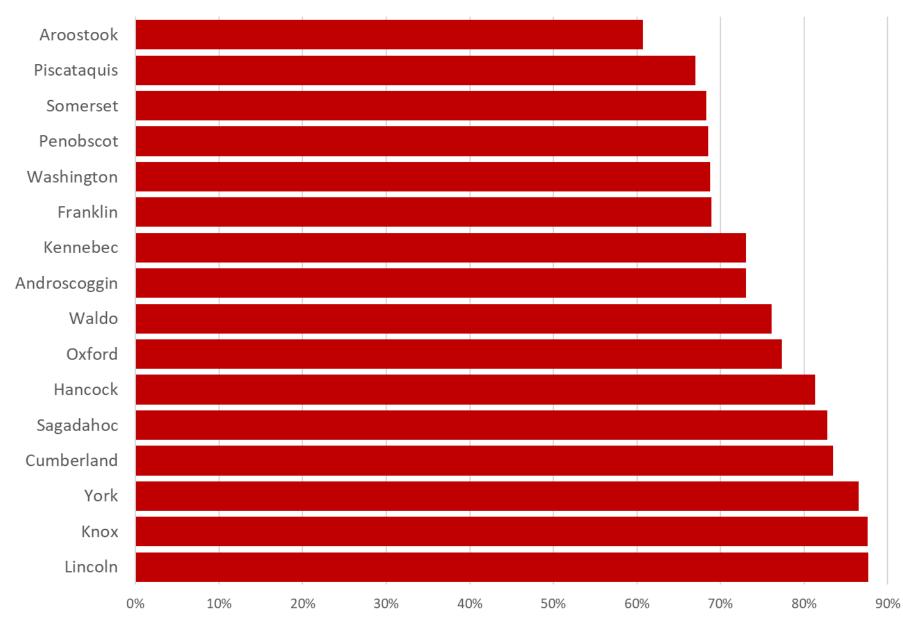

#### Percent of Households Unable to Afford Median Home, 2022

High demand
+ low supply
= price increases,
contributing to
sharp increase in
unaffordability

90%

Percent of Households Unable to Afford Median Home, 2023

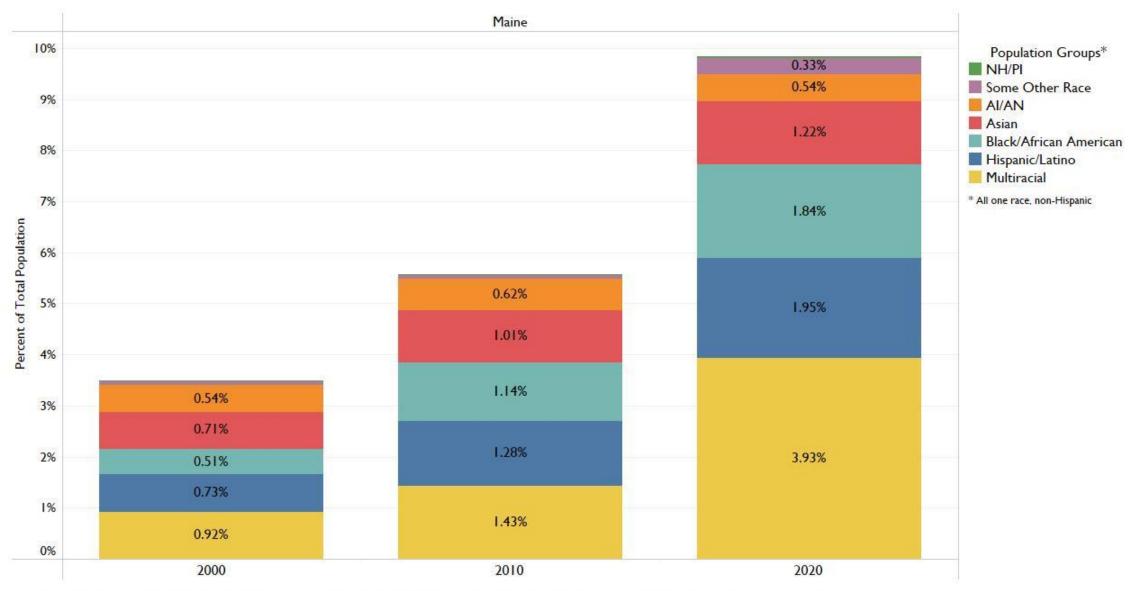

High demand
+ low supply
= price increases,
contributing to
sharp increase in
unaffordability

# Demographics

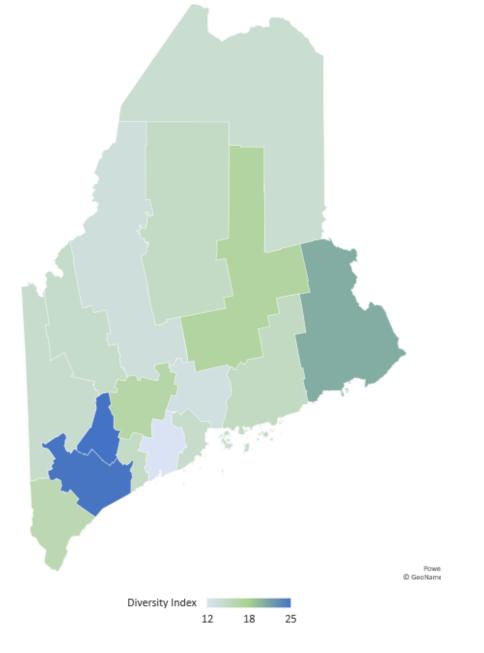

#### Share of Total Population by Population Group | Maine

Data source: 2000, 2010, and 2020 U.S. Decennial Census

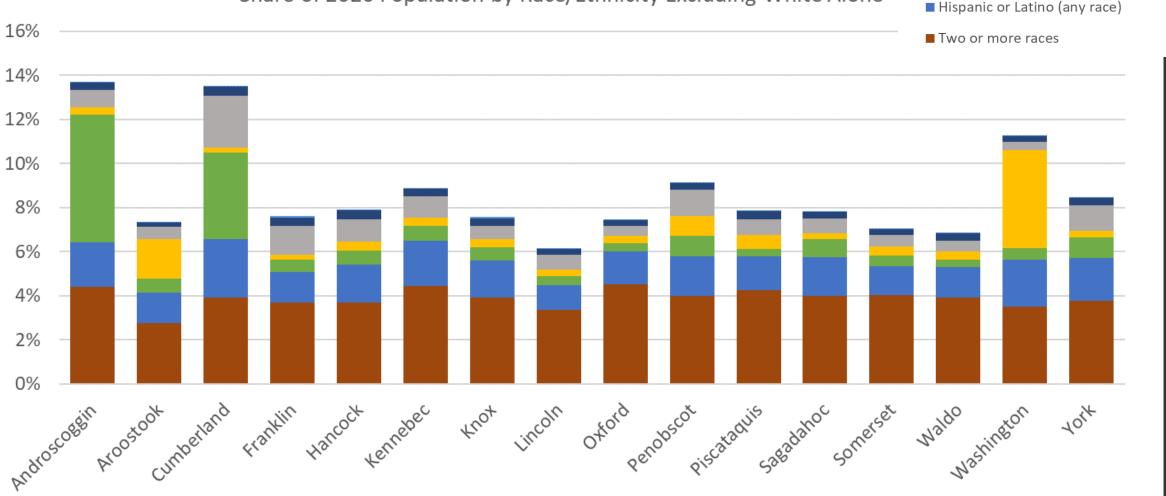

Note: Bars with less than 0.10% are not labeled for clarity and the White population is excluded from this figure because it comprises over 90% of the population.

Diversity Index in Maine, 2020: All Ages

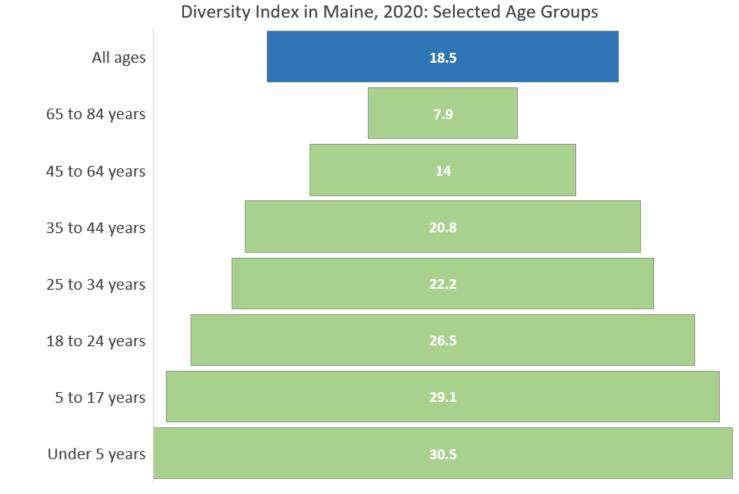

The diversity index tells us the chance that two people selected at random will be from different race or ethnicity groups

- In 2020, Maine ranked as the least diverse state in the U.S.
  - ME index = 18.5
  - U.S. index = 61.1
- But there is regional variation: Cumberland, Androscoggin, and Washington counties are more diverse

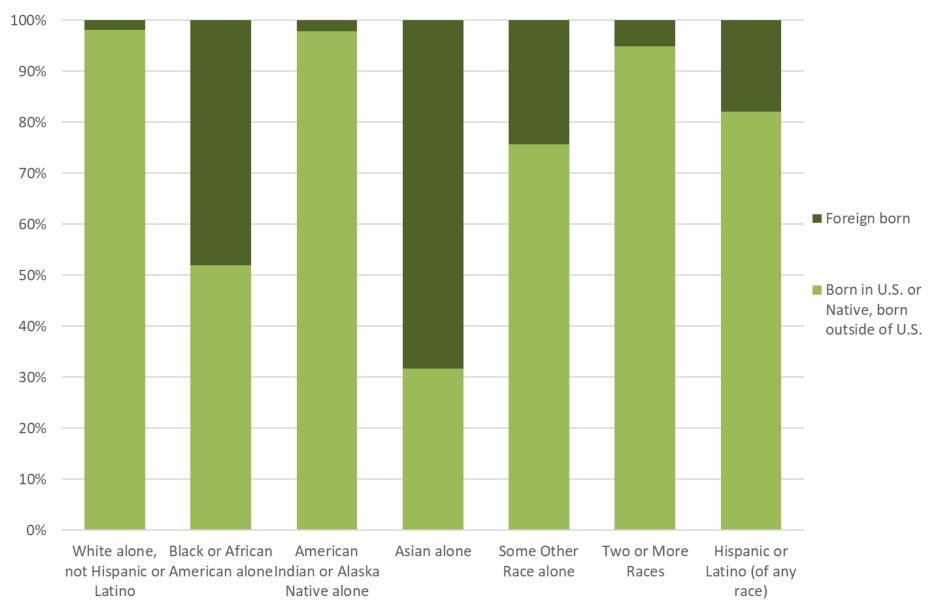

#### Share of 2020 Population by Race/Ethnicity Excluding White Alone

- Native Hawaiian and Other Pacific Islander alone
- Some Other Race alone
- Asian alone
- American Indian and Alaska Native alone
- Black or African American alone
- Hispanic or Latino (any race)

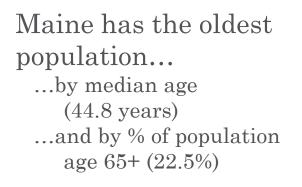

Younger generations in Maine are more diverse than older generations

Race and/or ethnicity is not the same as place of birth

#### Share of Maine Population by Region of Birth for Race/Ethnicity

Median Age

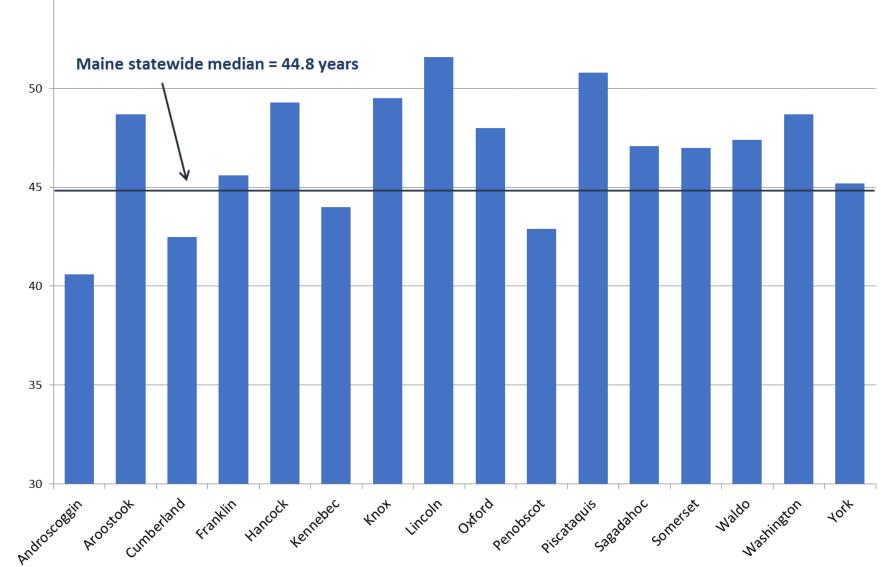

55

#### BUT!

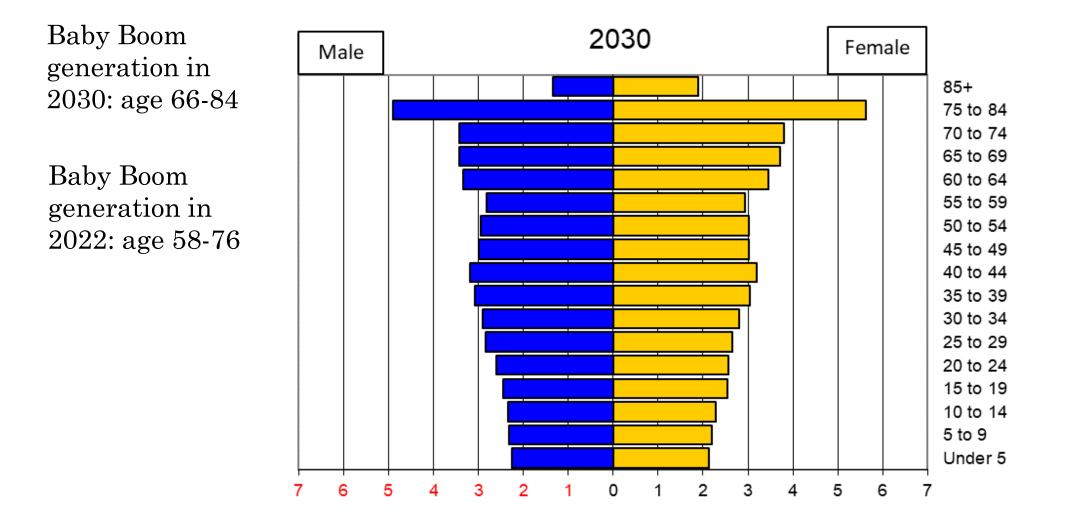

Maine was one of only two states to see a decrease in median age from 2020 to 2021...

...and was one of only four states to not see an increase from 2021 to 2022

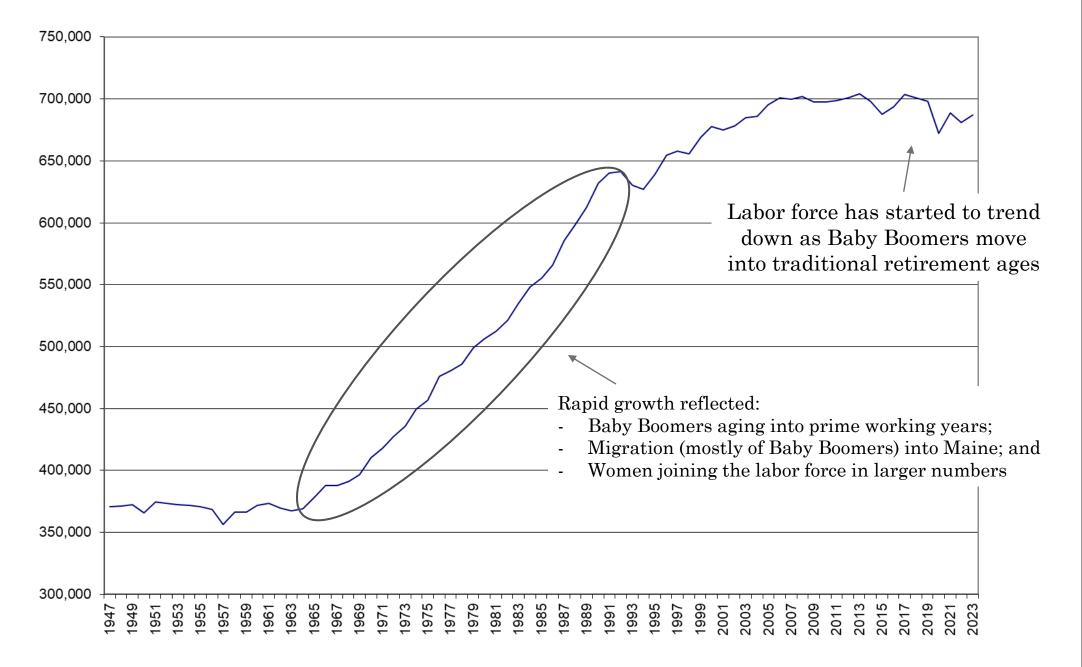

2021 median age decreased in ME and CT; 2022 median age unchanged in ME, AL, TN, WV

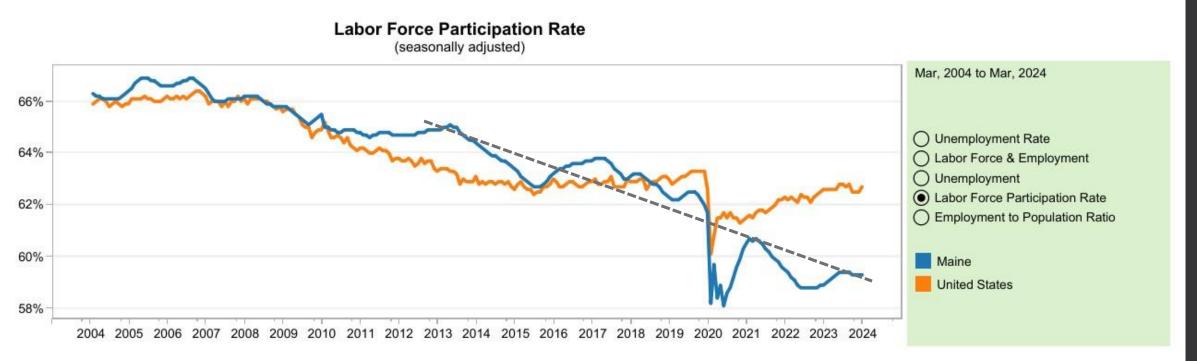

## The Baby Boom: 1946-1964

# Labor Force and Employment

#### Maine Civilian Labor Force

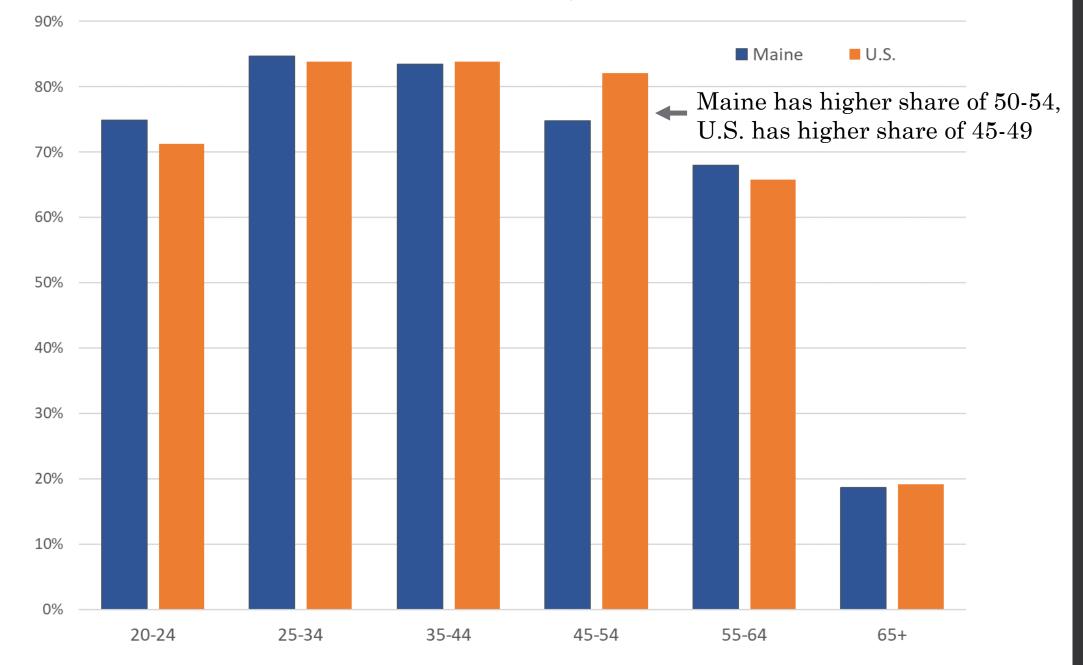

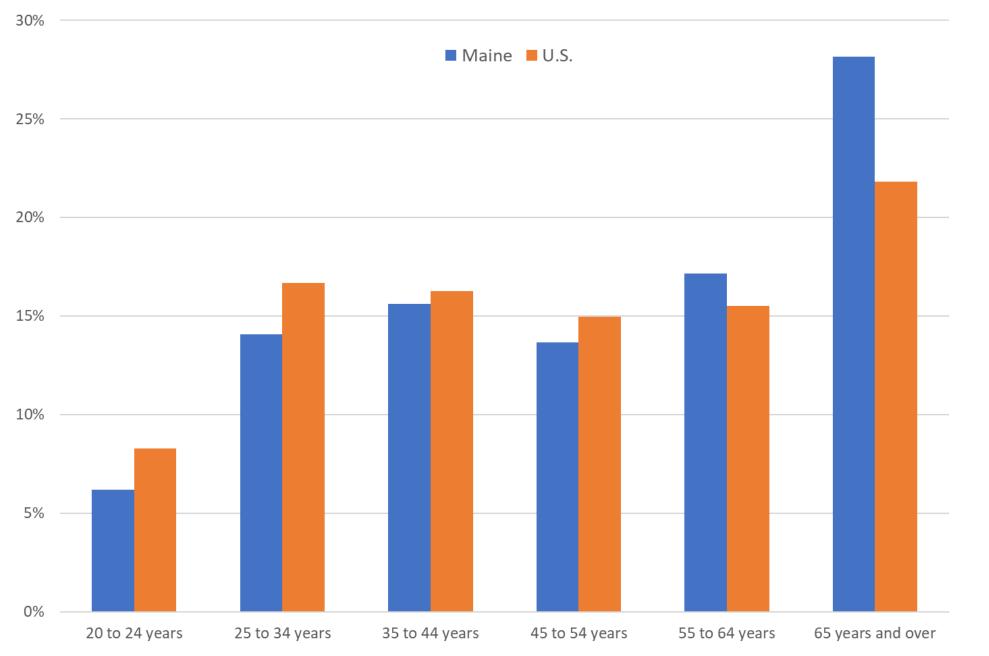

If the age distribution of Maine's population was the same as the U.S., our overall labor force participation rate would be about the same as the U.S.

2023 Labor Force Participation Rate

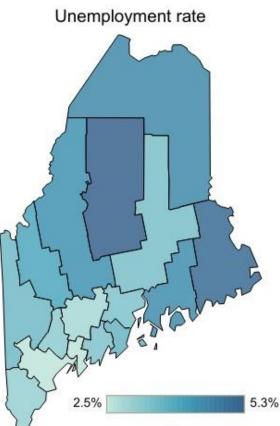

#### Civilian Noninstitutional Population by Age, 2023

## Maine's 3.3% unemployment rate in March 2024 was close to recent record lows and little changed over the past six months

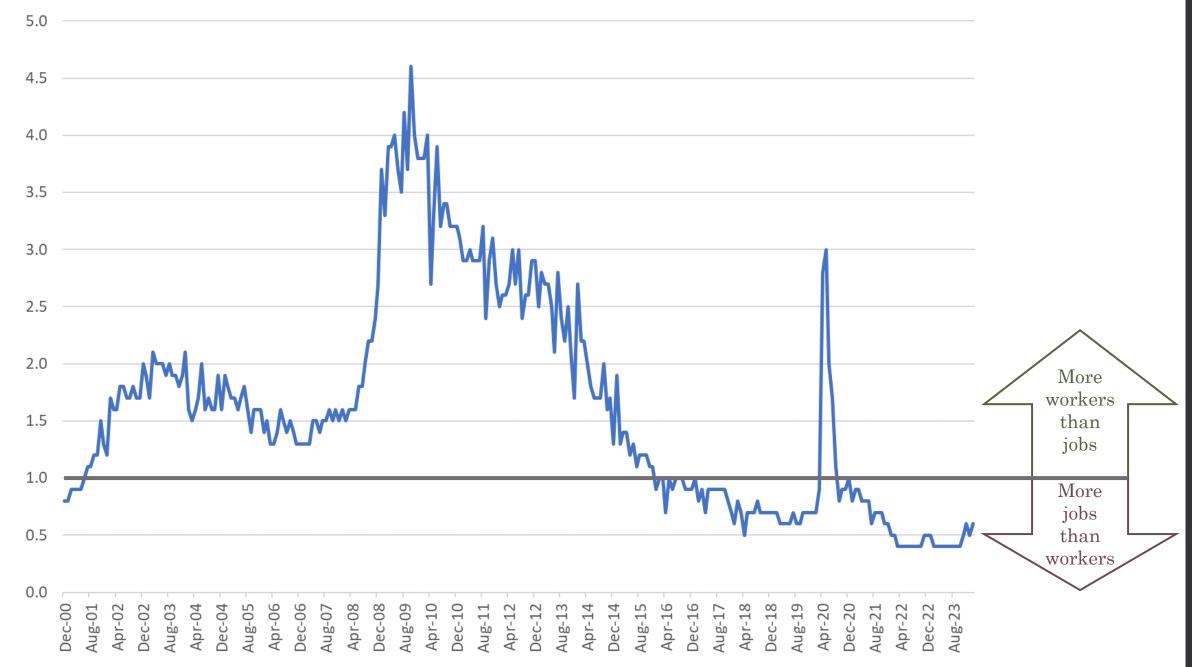

#### County Rates (not seasonally adjusted)

| March, 2024   | County       | Rate | Year ago | One-yr change |   |
|---|--------------|------|----------|---------------|---|
|   | Maine        | 3.2% | 3.0%     | 0.2           | t |
|   | Androscoggin | 3.1% | 3.1%     | 0.0           | _ |
| <ul> <li>Table</li> <li>Graph</li> <li>Map/Graph Display</li> <li>Unemployment rate</li> <li>One-year change</li> </ul> | Aroostook    | 4.5% | 4.1%     | 0.4           | + |
|   | Cumberland   | 2.5% | 2.4%     | 0.1           | + |
|   | Franklin     | 3.9% | 3.4%     | 0.5           | + |
|   | Hancock      | 4.4% | 4.5%     | -0.1          |   |
|   | Kennebec     | 2.8% | 2.6%     | 0.2           | + |
|   | Knox         | 3.6% | 3.3%     | 0.3           | + |
|   | Lincoln      | 3.3% | 3.3%     | 0.0           | - |
|   | Oxford       | 3.5% | 3.3%     | 0.2           | + |
|   | Penobscot    | 3.4% | 3.1%     | 0.3           | + |
|   | Piscataquis  | 5.3% | 4.5%     | 0.8           | + |
|   | Sagadahoc    | 2.5% | 2.4%     | 0.1           | + |
|   | Somerset     | 4.3% | 4.9%     | -0.6          | + |
|   | Waldo        | 3.3% | 3.4%     | -0.1          |   |
|   | Washington   | 5.1% | 4.7%     | 0.4           | + |
|   | York         | 3.0% | 2.8%     | 0.2           | + |

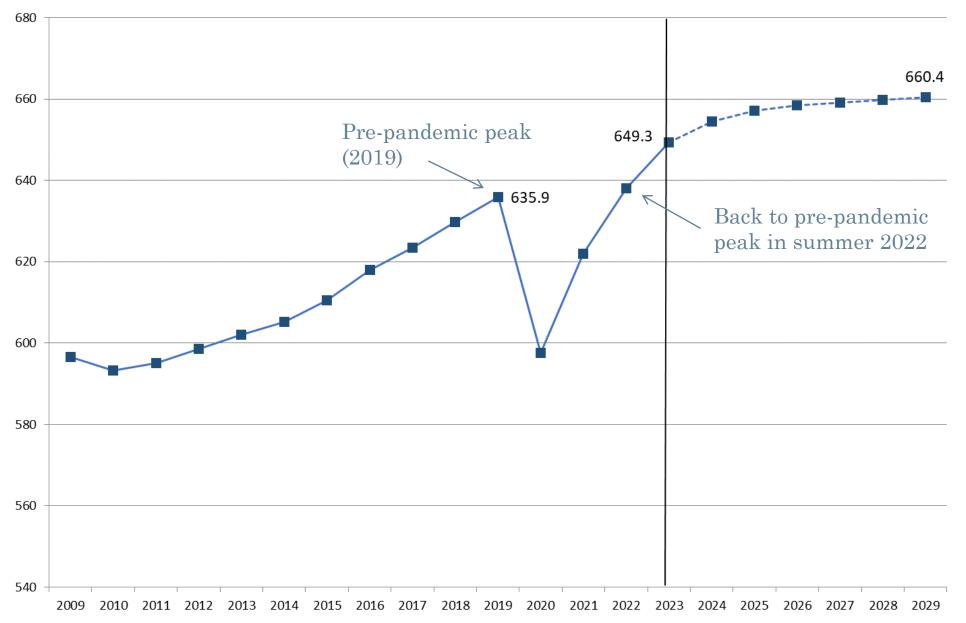

Maine Department of Labor, Center for Workforce Research and Information

#### Unemployed Persons per Job Opening Ratio - Maine

 $2\mathfrak{C}$ 

#### Total Nonfarm Employment (in thousands) History and Consensus Economic Forecasting Commission forecast

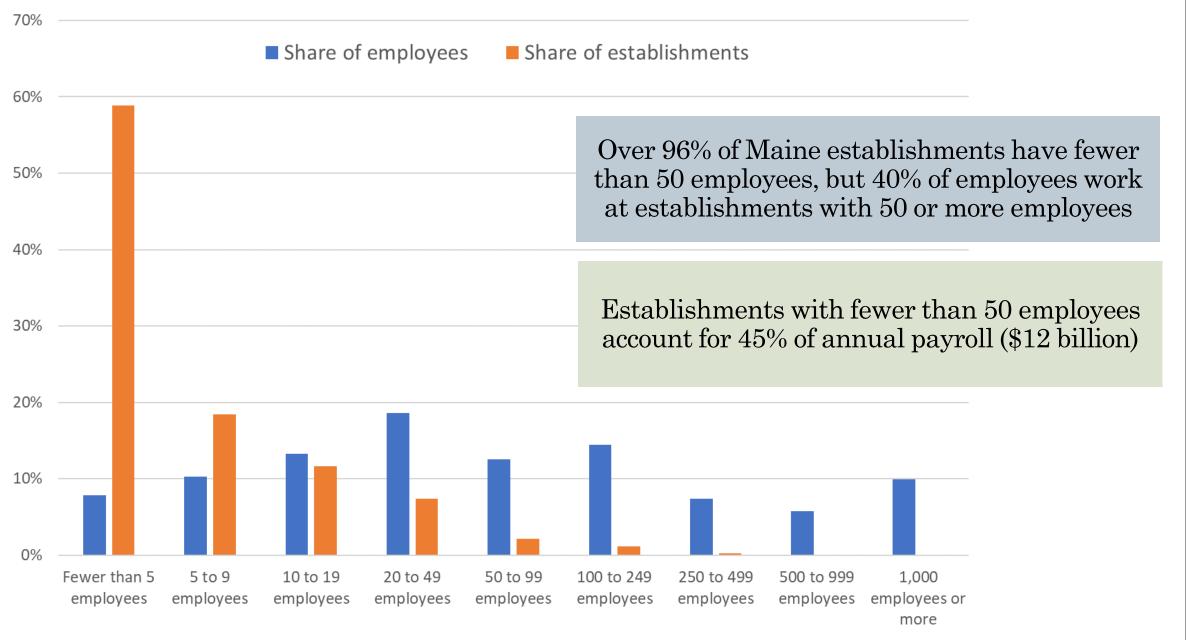

According to the Maine Department of Labor's Employment Outlook to 2030, the relative shares are not expected to change by much (the same sectors are still expected to be the largest) 20%

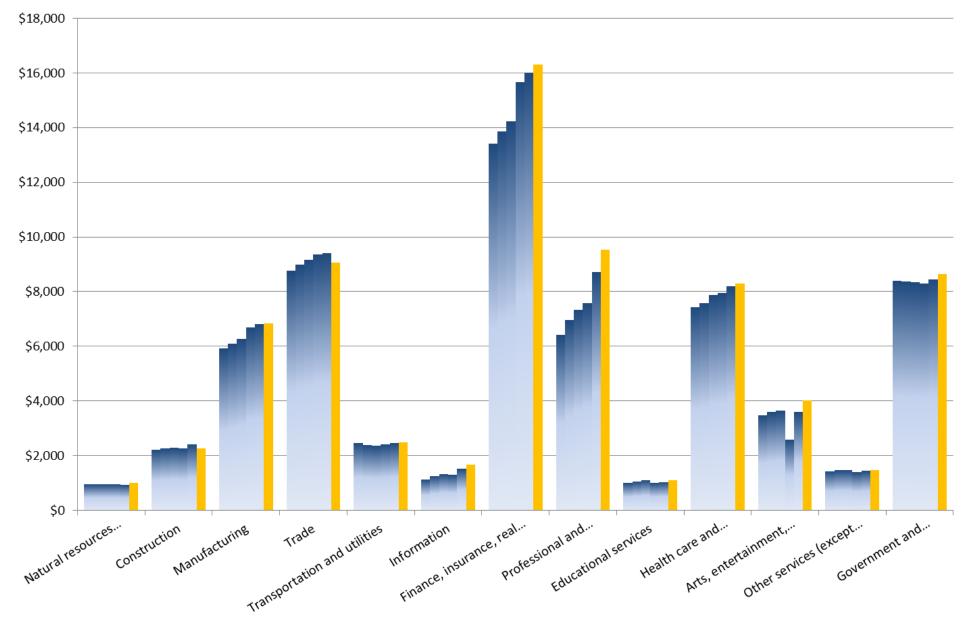

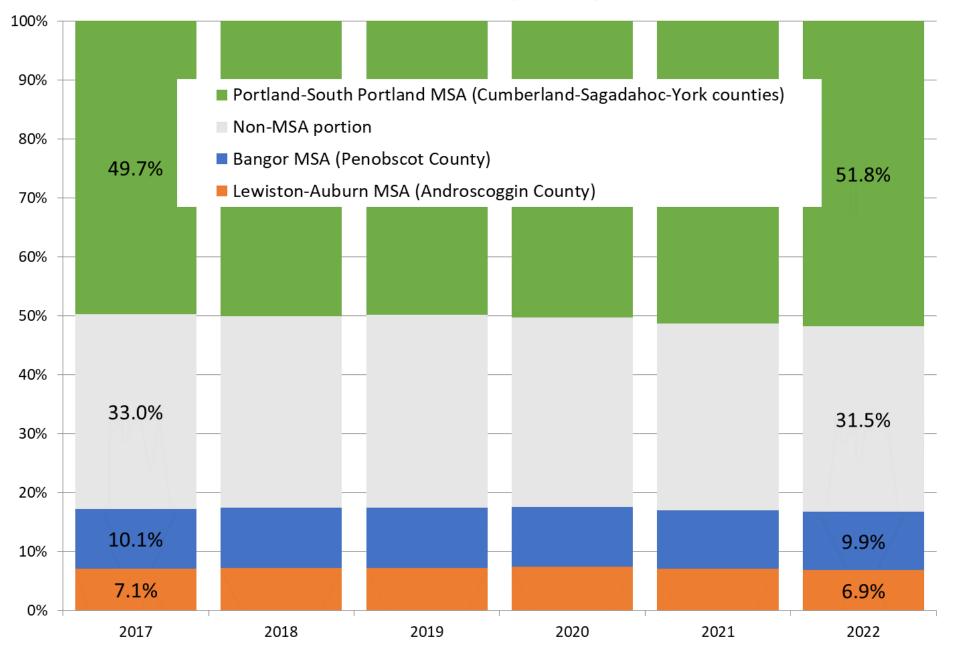

## Share of establishments and employees by establishment size class Maine, 2021

#### Maine Real GDP by Industry, 2017-2022 (in millions of chained 2017 dollars)

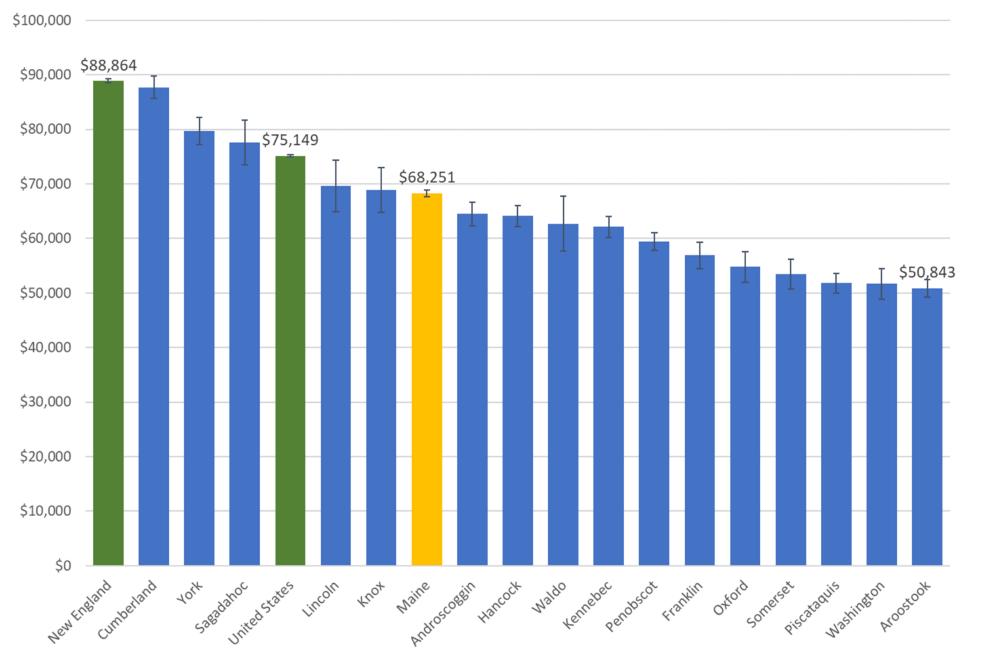

#### Share of Maine Real GDP by Metropolitan Area

# Wages, Income, and Inflation

#### Median Household Income

Wages increased sharply during the first part of the pandemic, but increases more recently have just kept pace with inflation

#### 37

#### Components of Personal Current Transfer Receipts, Maine

### Percent Change in Real Personal Income (2023 \$), Maine 2012-2022 and forecast to 2029

#### Year-over-year percent change in Consumer Price Index

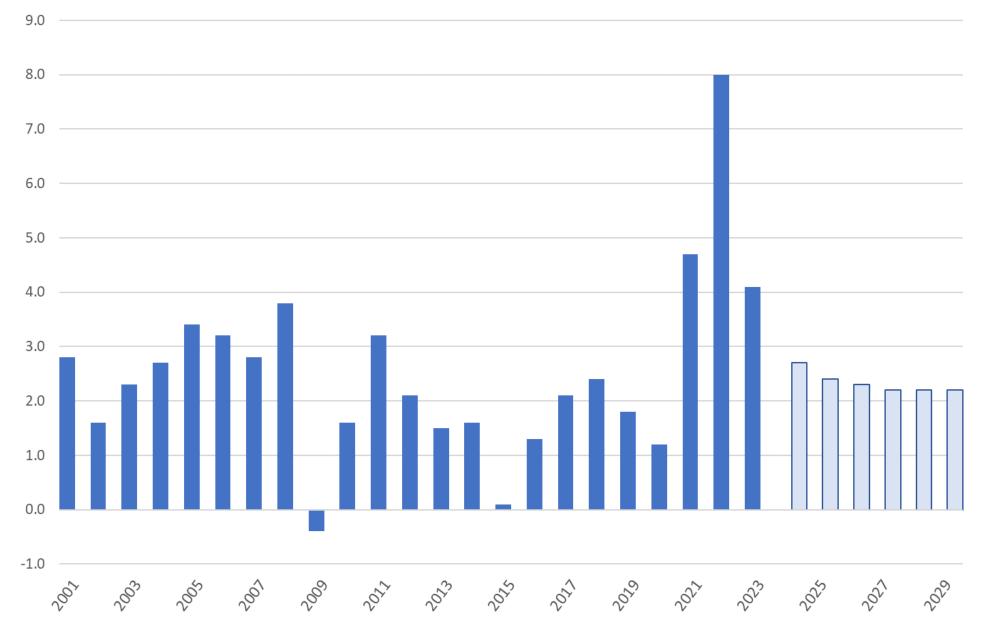

45

What does this mean for interest rates?

# Current target range: 5.25% to 5.5%

Median projection for 2024 from March 2024 Federal Open Market Committee statement was 4.6%, implying three possible decreases of 25 basis points later this year, but inflation hasn't slowed as quickly as expected Year-over-year percent change in Consumer Price Index; 2001-2023 historical and 2024-2029 forecast

## Where might we be going?

**Consumer Sentiment and Small Business Optimism Indexes** 

Consumer sentiment has held fairly stable since January 2024, with consumers seeing few indications of changing conditions (for better or worse).

Sources: University of Michigan Survey of Consumers and NFIB Small Business Optimism Index

#### Key assumptions from February 2024 CEFC report (emphasis added)

- There is an unequal distribution of supply and demand in the labor market. Demand for labor is high, supply is low, and unemployment rates are near historic lows in Maine and nationwide. Workers are experiencing higher wage growth, particularly for lower wage jobs. Some demographic trends, including a growing share of the population reaching retirement age, will continue to constrain labor supply. <u>While Maine will continue to see higher in-migration of working-age people in the coming years, this may not be sufficient to fully offset retirements in the future.</u>
- Rising interest rates, low supply of available properties, and ongoing in-migration are continuing to impact the housing market. Home sales are down, while sale prices have continued to increase. Affordability is of particular concern as higher interest rates caused more potential buyers to be priced out of the market. Higher home prices have contributed to higher rental prices.

#### Key assumptions from February 2024 CEFC report (emphasis added) cont'd

- Large, federally funded infrastructure programs, including the Bipartisan Infrastructure Law (BIL) and Maine Jobs and Recovery Plan (MJRP), will lead to significant investments in Maine, with potential impacts on local job markets. In addition to funds from the MJRP, it is estimated that there will be <u>at least \$2.5 billion from the BIL</u> <u>invested in Maine's infrastructure over the next few years, with much of the</u> <u>implementation beginning in 2024.</u>
- Geopolitical tensions remain elevated and continue to pose a negative risk to the forecast.
- Climate shocks are beginning to impact some sectors of Maine's economy, particularly hospitality; while future impacts are unknown, the Commission recognizes the potential for resulting economic changes and intends to track and consider possible implications in future forecasts.

## Things to keep in mind:

- Housing costs increased sharply as demand outstripped supply and then interest rate hikes made mortgages more expensive, locking people into existing lower-rate mortgages, but there may be some improvement in the future as interest rates come down and more housing is built
- Inflation has eased, although not as quickly as hoped the question now is when will the Fed start lowering its target rate and how low will we get this year?
- Migration into Maine continued in 2023 as population patterns nationally returned to normal
- Economic uncertainty remains elevated, especially with geopolitical upheaval and a presidential election year
- Maine has a robust Budget Stabilization Fund (nearly \$970 million as of March 2024 the current statutory maximum) and spending from pandemic-era infusion of federal funds is ongoing, with much of the infrastructure spending starting this year, which will help Maine weather a potential slowdown
