### Air Quality

Code	Description	Processing Fee	Licensing Fee
70	part 70 air license (c. 140)	(see I & II below)	(see I & II below)
71	major & minor source license (c.115)	(see I & II below)	(see I & II below)
-	general permit (c. 149, 164 and 165)	-	\$146
75	property, sales and use tax exemption certification	\$564	\$45

I. All licensed air emission sources pay an annual license fee assessed based on the sum of all license allowed criteria air pollutants, except for carbon monoxide, and reported emissions of hazardous air pollutants.

A. The annual license fee is:

Annual license allowed emissions, in tons	Fee per ton
from 1 to 1,000 .....	\$12.31
from 1,001 to 4,000 .....	\$24.66
additional emissions over 4,001 .....	\$36.95

The minimum annual license fee is \$565 and the maximum annual license fee is \$340,333.

B. An **air quality surcharge** of \$4.81 for every 1,000 air quality units is added to the annual license fee for sources subject to Chapter 137 reporting requirements for hazardous air pollutants. Air quality units are determined by multiplying the toxicity score of each emitted hazardous air pollutant by the reported emissions of that pollutant.

The minimum annual air quality surcharge is \$226.62, and the maximum annual air quality surcharge is \$113,481.29.

II. Billing dates for the annual license fee and surcharge (“annual fees”) are based on the anniversary date of the original license. A source’s annual fees will be due by the end of February, May, August or November every year, as billed by the Department. Failure to pay annual fees within 30 days of the quarterly due date is grounds for revocation of the license.

III. A new application must include the payment of the estimated annual license fee before that application is accepted for processing. There are no additional fees for minor revisions, amendments, transfers or renewals.

<sup>3</sup>The Processing Fee for water quality certifications is to be charged only for stand-alone applications. Where a water quality certification finding is required as part of another NRPA application, the Code 08 fee is not charged.

<sup>4</sup>The department may use “outside reviewers” pursuant to 38 M.R.S. §344-A for which the applicant must pay all costs in addition to the processing fee.

<sup>5</sup>The following table is used to calculate the fees for projects which alter 15,000 square feet or more of freshwater wetland; square feet proposed for alteration is multiplied by each fee.

Code	Description	Processing Fee	Licensing Fee
	alteration involving fill or structure	0.0330/sq.ft.	0.0110/sq.ft.

The fee for a **minor revision** and **conditional compliance** of all NRPA permits except codes TA, TB & TC is \$213; the fee for a **minor revision** of permit codes TA, TB & TC is \$35 if there is no change in square footage. The fee for an **amendment** is one half the processing fee, plus one half the licensing fee, except amendment of permits with type code TA is \$35. NRPA permits are **transferred** or **extended** using a permit by rule application. For projects that involve additional wetland impacts at a site with previously permitted wetland impacts, the fee is based on the total cumulative wetland impact for the project. If the Commissioner determines that an application, by virtue of its size, uniqueness, complexity or other relevant factors, is likely to require significantly more costs than those listed on this table, the Commissioner may designate that application as subject to special fees per 38 M.R.S. §352.

## Water Quality – Industrial Stormwater

Code	Description	Processing Fee	Annual Licensing Fee
<b>MN</b>	multi-sector general permit - industrial facilities		\$751

## Water Quality – Wastewater Discharge

- I. All facilities licensed to discharge pollutants to the waters of the state must pay annual waste discharge license fees. For existing licensees, the annual waste discharge fee will be the previous year fee adjusted by the Consumer Price Index. In accordance with P.L. 2019, ch. 631, An Act To Ensure Adequate Funding for the Maine Pollutant Discharge Elimination System and Waste Discharge Licensing Program, there will be a one-time increase of 40% from the 2019 fee in addition to the annual CPI adjustment. The 40% increase will not be applied to OBD fee codes 5A, 5B, 5C, or 5D.
- II.
  - A. The annual fee for existing licenses is due on the anniversary date of the license or such other date initially established by the Department. This date, once established, remains the scheduled date for payment of annual fees for that license.
  - B. The annual fee for any new application, or existing license that is reclassified to a new license type category, will be the median fee for the assigned category and must be paid at the time of filing.
  - C. With the exception of transfers of licenses for discharges from residential or commercial OBDs, no additional fees are assessed for license renewals, amendments, minor modifications or other revisions.
  - D. A fee of \$143 is required for transfer of licenses for discharges from residential or commercial OBDs.
  - E. Failure to pay the annual fee within 30 days of the due date is sufficient grounds for revocation of the license and may also result in collection actions or formal enforcement, including monetary penalties.
