Re: Decommissioning of Bingham Wind Power Project Roads

Dear Mr. Courtemanch,

I am writing on behalf of E.D. Bessey & Son regarding Blue Sky East, LLC's Bingham wind power project, which is proposed to be located on Bessey land in Mayfield Township.

The land in question is actively managed commercial timberland. Our understanding is that the Bingham project will include the construction and improvement of roads on our property. The attached map depicts the project roads to be built or improved on Bessey land.

This roadwork will benefit our land by providing additional access to forest resources that are important to our commercial operation.

As such, we request that the roads constructed on Bessey land as part of the Bingham project remain in place after the project has been decommissioned.

Sincerely,

Ethan Bessey, VP
E D Bessey & Son
