Hi Ron-

We have not received an application for this pier modification yet, but I'm including Dawn Hallowell on this email so that we can include you on an interested party list when we do get an application.

Thank you.

Re interested party request for Yachting Solutions plan for Rockland Harbor

Dear Mr Bergeron

Friends of Penobscot Bay is a Waterkeeper Alliance Affiliate. We have concerns over the potential impacts that the Yachting Solutions proposal to expand its piers could have, including but not limited to: safe navigation within Rockland Harbor, the size of the city's public mooring fields, the harbor's commercial fisheries and to its scenic resources. Would you please include us on the interested party list for this project?

We would like to stay abreast of the project's review by Maine DEP, and believe that we can contribute helpfully to the review process. Please add us to the interested party list of this project. You may contact me if you have any questions

Sincerely

Ron Huber, executive director

Friends of Penobscot Bay
