Thank you so much Dawn. This is good to know. Yachting Solutions continues to tell City Council, Harbor Management Commission and the press that their permitting process is underway. The ACOE process hasn't even started yet as far as we can tell. Please keep me on the "interested parties" list. Thank you again.

Best regards,

Lynne Barnard, SHIP

In March 2018 Bud Brown sent an email to both DEP & ACOE asking about potential dredging and testing. We haven't heard anything since.

-

FYI – Mark Bergeron no longer works for DEP, so I removed his email address from the list.

Dear All,

It's been several months since I've been in touch. I have new e-mail address as you can see. In the meantime, the process of saving our Municipal Channel for the citizens of Rockland continues. Most recently the City Council approved an addendum to Ordinance 9 that identifies the channel to include a 20' buffer on each side. The Municipal Channel will be marked with the appropriate buoys in the spring. The Rockland Harbor Park, LLC/Yachting Solutions expansion plans are affected by widening of the channel but still we are concerned that they maybe proceeding on the basis of the plans that I provided to you last year. Would you please let me know whether you have heard anything further from them requesting permitting, testing or submerged land lease expansion.

-

I look forward to hearing from you soon. Hope you've had a good summer. It went by too fast!!!

-

Best,

-
